The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Spar Group Inc. business.

About Spar Group Inc.

SPAR Group, Inc. is a diversified international merchandising and marketing services company.

The company provides merchandising and other marketing services to manufacturers, distributors and retailers worldwide, primarily in mass merchandisers, office, grocery and drug store chains, independent, convenience and electronics stores, as well as providing furniture and other product assembly services and related technology services and marketing research.

The company operates in 11 countries including the United States, Canada, Japan, South Africa, India, Romania, China, Lithuania, Latvia, Australia and New Zealand.

The company's merchandising services primarily consist of regularly scheduled, special project and other product services provided at the store level. Its other merchandising services include whole store or departmental product sets or resets, including new store openings, new product launches and in-store demonstrations, special seasonal or promotional merchandising, focused product support and product recalls.

Services

The COMPANY'S operations are divided into two divisions: the Domestic Merchandising Services Division and the International Merchandising Services Division.

The Domestic Merchandising Services Division provides merchandising and marketing services, furniture and other product assembly services, RFID services, technology services and marketing research to manufacturers and retailers in the United States. The various services are primarily performed in mass merchandisers, electronics store chains, drug store chains, convenience, and grocery stores.

The International Merchandising Services Division provides similar merchandising, marketing services and in-store event staffing through subsidiaries in Japan, Canada, South Africa, India, Romania, China, Lithuania, Latvia, Australia and New Zealand.

The company provides its merchandising and marketing services primarily on behalf of retailers and consumer product manufacturers and distributors at mass merchandiser, electronic, drug and retail grocery chains. The company provides three principal types of merchandising and marketing services: syndicated services, dedicated services and project services.

Customers

The company serves various manufacturers and/or retail clients in a range of retail chains and stores worldwide, including mass merchandisers, drug, grocery, office supply, other retail outlets (such as discount and electronic stores, and in-home and in-office).

Significant Events

On July 26, 2010, Spar Group Inc. announced the structuring of a new Joint Venture in China with its new partner Shanghai Wedone Marketing Consulting Co., Ltd. The new joint venture would provide merchandising and marketing services and have national market presence in the country.

History

SPAR Group, Inc. was founded in 1967.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
