The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Spark Networks, Inc. business.

About Spark Networks, Inc.

Spark Networks, Inc. provides online personals services in the United States and internationally. The company's Web sites enable adults to meet online, participate in a community and form relationships. It provides this opportunity through various features on its Web sites, such as profiles, onsite email centers, real-time chat rooms, instant messaging services, and offline singles events.

The company's main Web sites include JDate.com, Spark.com, BlackSingles.com and ChristianMingle.com. It operates various international Web sites and maintains operations in the United States and Israel.

Online Personals Services

The company's online personals services offer single adults a secure setting for meeting other singles. Visitors to its Web sites are encouraged to become registered members and post profiles. Members can perform detailed searches of other profiles and save their preferences, and their profiles can be viewed by other members. In most cases, for a member to initiate email and instant message communication with others, that member must purchase a subscription.

The company operates Web sites targeted at specific religious, ethnic, geographic and special interest groups. It offers Web sites in English, Hebrew, and French.

Web Site Features: The company offers different ways for its members to communicate, including

On-Site Email: The company provides paying subscribers with private message centers. These personal on-site email boxes offer features, such as customizable folders for storing correspondence, the ability to know when sent messages were read, as well as block and ignore functions, which allow a paying subscriber to control future messages from specific paying subscribers.

Hot Lists and Favorites: 'Hot Lists' enable members to see who is interested in them and to save those favorite members in whom they are interested. Lists include who has viewed your profile, your favorites, and who has emailed you. Members can group their favorites into customized folders and add their own notes, including details included in a member's profile.

Message Boards: Message Boards enable paying subscribers to communicate in a group environment with suggested topics for discussion.

Real-Time Chat Rooms: Paying subscribers can use its chat rooms to mix and mingle in real-time, building a sense of community through group discussions. Additional features enable users to add customized graphics, such as emoticons to their conversations.

Ice Breakers: Members can send pre-packaged opening remarks, referred to on the Web sites as 'flirts' and 'teases' to other members or paying subscribers.

Click!: The company's patented Click! feature connects members who think they would be compatible with each other. A member clicks 'yes', 'no' or 'maybe' in another member's profile. When two members click 'yes' in each other's profiles, its patented feature sends an email to both of them alerting them of a possible match.

Travel and Events: As a complement to its online services, the company offers travel and other promotional events which allow individuals to meet in a personal environment. The company's travel and events are typically cruises, dinners, speed dating events, or other mixers designed to facilitate social interaction.

Competition

The company's principal online personals services competitors include Yahoo! Personals, Match.com, a wholly-owned subsidiary of InterActiveCorp, and eHarmony, all of which operate primarily in North America. In addition, the company faces competition from social networking Web sites, such as MySpace and Facebook.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
