The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of The St. Joe Company business.

About The St. Joe Company

The St. Joe Company operates as a real estate development company in Florida. The company owns approximately 577,000 acres, approximately 405,000 acres of which are within 15 miles of the coast of the Gulf of Mexico. The company engages in town and resort development, commercial and industrial development, and rural land sales. It also has interests in timber.

Segments

The company's segments include Residential Real Estate; Commercial Real Estate; Rural Land Sales; and Forestry.

Residential Real Estate

The Residential Real Estate Segment develops large-scale, mixed-use resort, seasonal and primary residential communities. It owns various tracts of land in Northwest Florida, including tracts near Tallahassee and Panama City, and significant Gulf of Mexico beach frontage and other waterfront properties. The company's customers for its developed home-sites include both individual purchasers and national, regional and local homebuilders.

The company's major residential development projects in Florida include WaterColor, WaterSound Beach, WaterSound West Beach, WaterSound, RiverCamps on Crooked Creek, WindMark Beach, SummerCamp Beach, SouthWood, and RiverTown.

WaterColor is situated on approximately 499 acres on the beaches of the Gulf of Mexico in south Walton County. The community includes approximately 1,140 units, including an 11-unit private residence club with fractional ownership. The community includes the WaterColor Inn and Resort, the recipient of various notable awards. The WaterColor Inn and Resort is operated by Noble House Hotels & Resorts, a boutique hotel ownership and management company with 14 properties throughout the United States. Other WaterColor amenities include a beach club, spa, tennis center, an award-winning upscale restaurant, retail and commercial space and neighborhood parks.

WaterSound Beach is located approximately five miles east of WaterColor. Situated on approximately 256 acres, WaterSound Beach includes approximately one mile of beachfront on the Gulf of Mexico. Amenities include the WaterSound Beach Club, a private, beachfront facility featuring a 7,000 square feet, free form pool and a restaurant.

WaterSound West Beach is located approximately one-half mile west of WaterSound Beach on the beach-side of County Road 30A. This community has been designed for 199 units with private beach access through the adjacent Deer Lake State Park.

WaterSound is situated on approximately 2,425 acres and is planned for a mixed-use resort community. It is located approximately three miles from WaterSound Beach north of U.S. 98 in Walton County. WaterSound includes a Davis Love III-designed, as well as a community pool and clubhouse facility.

RiverCamps on Crooked Creek is situated on approximately 1,491 acres in western Bay County bounded by West Bay, the Intracoastal Waterway and Crooked Creek. The community is planned for 408 finished homes in a low-density, rustic setting with access to various outdoor activities, such as fishing, boating and hiking. The community includes the RiverHouse, a waterfront amenity featuring a pool, fitness center, meeting and dining areas and temporary docking facilities.

WindMark Beach is situated on approximately 2,020 acres in Gulf County near the town of Port St. Joe. Plans for WindMark Beach include approximately 1,516 residential units and 76,000 square feet of commercial space. The community features a waterfront Village Center that includes a restaurant, a community pool and clubhouse facility, an

amphitheater and approximately 42,000 square feet of commercial space.

SummerCamp Beach is located on the Gulf of Mexico in Franklin County approximately 46 miles from Tallahassee. The community is situated on approximately 762 acres and includes the SummerCamp Beach Club, a private beachfront facility with a pool, restaurant, boardwalks and canoe and kayak rentals.

SouthWood is located on approximately 3,370 acres in southeast Tallahassee. Planned to include approximately 4,770 residential units, SouthWood includes an 18-hole golf course and club and a traditional town center with restaurants, recreational facilities, retail shops and offices.

RiverTown, situated on approximately 4,170 acres located in St. Johns County south of Jacksonville, is planned for 4,500 housing units and 500,000 square feet of commercial space.

Commercial Real Estate

The Commercial Real Estate Segment develops and sells real estate for commercial purposes. It focuses on commercial development in Northwest Florida. The company provides development opportunities for national and regional retailers, as well as multi-family rental projects. It also offers land for commercial and light industrial uses within large and small-scale commerce parks. It also develops commercial parcels within or near existing residential development projects.

The company has an agreement with CB Richard Ellis Group, Inc., the commercial real estate services firm, to market for sale, joint venture or lease approximately 1,000 acres of its land adjacent to the Northwest Florida Beaches International Airport for commercial development.

Rural Land Sales

The Rural Land Sales Segment markets and sells rural land from its holdings in Northwest Florida. The company sells parcels of varying sizes ranging from a single acre or less to various acres.

Forestry

The Forestry Segment focuses on the management and harvesting of its timber

holdings. It grows, harvests, and sells timber and wood fiber. The company's principal forestry product is softwood pulpwood. It also grows and sells softwood and hardwood sawtimber. It has a pulpwood supply agreement with Smurfit-Stone Container Corporation that requires it to deliver 700,000 tons of pulpwood annually through June 30, 2012.

Significant Events

In April 2010, the St. Joe Company announced the launch of VentureCrossings Enterprise Centre at West Bay, Florida. VentureCrossings encompasses the first 1,000 acres to be developed by St. Joe within the 75,000-acre West Bay Sector Plan adjacent to the Northwest Florida Beaches International Airport opening in May 2010.

History

The St. Joe Company was founded in 1936.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
