## Abstracts

Stanley Black & Decker, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Stanley Black & Decker, Inc. and its competitors. This provides our Clients with a clear understanding of Stanley Black & Decker, Inc. position in the [Appliances and Furniture Industry](#).

The report contains detailed information about Stanley Black & Decker, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Stanley Black & Decker, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Stanley Black & Decker, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Stanley Black & Decker, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Stanley Black & Decker, Inc. business.

### **About Stanley Black & Decker, Inc.**

Stanley Black & Decker, Inc. supplies tools and engineered solutions for professional, industrial and construction and do-it-yourself use, as well as engineered security solutions for industrial and commercial applications.

#### **Segments**

The company's segments include Security, Industrial, and Construction & Do-It-Yourself.

#### **Security**

The Security segment provides access and security solutions primarily for retailers, educational, financial and healthcare institutions, as well as commercial, governmental and industrial customers. The company provides a suite of mechanical and electronic security products and systems, and various security services. These include security integration systems, software, related installation, maintenance, monitoring services, automatic doors, door closers, exit devices, hardware (includes hinges, gate hardware, cabinet pulls, hooks, braces and shelf brackets) and locking mechanisms. Security

products are sold primarily on a direct sales basis and in certain instances, through third party distributors.

## Industrial

The Industrial segment manufactures and markets: professional industrial and automotive mechanics tools and storage systems; engineered healthcare storage systems; hydraulic tools and accessories; plumbing, heating and air conditioning tools; assembly tools and systems; and specialty tools. These products are sold to industrial customers and distributed primarily through third party distributors, as well as through direct sales forces.

Professional mechanics tools and storage systems include wrenches, sockets, electronic diagnostic tools, tool boxes and high-density industrial storage and retrieval systems. Engineered healthcare storage systems are customized cabinetry and storage solutions used to store and track clinical supplies. Hydraulic tools and accessories include hand-held hydraulic tools and accessories used by contractors, utilities, railroads and public works, as well as mounted demolition hammers and compactors designed to work on skid steer loaders, mini-excavators, backhoes and excavators. Plumbing, heating and air conditioning tools include pipe wrenches, pliers, press fitting tools, and tubing cutters. Assembly tools and systems include electric and pneumatic assembly tools; these are precision tools, controllers and systems for tightening threaded fasteners used chiefly by vehicle manufacturers. Specialty tools are used for assembling, repairing and testing electronic equipment.

## Construction & Do-It-Yourself

The Construction & Do-It-Yourself (CDIY) segment manufactures and markets hand tools, consumer mechanics tools, storage systems, pneumatic tools and fasteners. These products are sold to professional end users, as well as consumers, and are distributed through retailers, including home centers, mass merchants, hardware stores, and retail lumber yards. Hand tools include measuring and leveling tools, planes, hammers, demolition tools, knives and blades, screwdrivers, saws, chisels and consumer tackers. Consumer mechanics tools include wrenches and sockets. Storage systems include plastic tool boxes and storage units. Pneumatic tools and fasteners include nail guns, staplers, nails and staples that are used for construction, remodeling, furniture making, pallet manufacturing and other applications involving the attachment of wooden materials.

## Customers

The company's major customer includes The Home Depot.

## History

The company was founded in 1843. It was formerly known as The Stanley Works and changed its name to Stanley Black & Decker, Inc. in March 2010.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
