## Abstracts

Stratabound Minerals Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Stratabound Minerals Corp. and its competitors. This provides our Clients with a clear understanding of Stratabound Minerals Corp. position in the Industry.

The report contains detailed information about Stratabound Minerals Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Stratabound Minerals Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Stratabound Minerals Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Stratabound Minerals Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Stratabound Minerals Corp. business.

### **About Stratabound Minerals Corp.**

Stratabound Minerals Corp. engages in the exploration and development of gold and base metal properties in New Brunswick, as well as diamond, gold, and base metal prospects in Quebec.

#### Properties

The company, during 2008, conducted drill programs on the Captain and Elmtree properties in New Brunswick, and at Melchett Lake, Ontario.

**Captain/CNE Claims:** The company owns 100% interest in Captain and CNE claims, which are situated 20 kilometers south of Xstrata's Brunswick No. 12 Mine and 10 kilometers east of Heath Steele Mines, a major past producer.

**Elmtree Gold Property, New Brunswick:** The company's 100%-owned Elmtree Gold property is situated 19 kilometers northwest of the coastal city of Bathurst, New Brunswick.

**Green Point, New Brunswick:** The company has a 100% interest, subject to a 2% net smelter return royalty, in 71 claims (1,136 hectares) located 2.5 kilometers northeast of

the company's Elmtree Extension claims.

**Melchett Lake, Ontario:** This property consists of 209 units in 17 claims, an area of 3,344 hectares (8,263 acres). It covers a 13.5 kilometers long felsic volcanic sequence.

**Highway Gold Properties, Western New Brunswick:** The company has optioned 14 claims containing and surrounding a new gold discovery made during the construction of the Trans-Canada Highway near Big Presque Isle Stream, located in western New Brunswick approximately eight kilometers south of Florenceville near the U.S. border.

**Ramsay Brook Gold Property, New Brunswick:** The company has a 100% interest in this 68 claim gold prospect situated 55 kilometers south-southwest of Elmtree. The claims cover a 4.7 kilometer portion of the Ramsay Brook Fault, a major regional structure, and a 1.5 kilometer length of a thrust fault that splays off it in a southwest direction.

**Loch Lomond Area, Southern New Brunswick:** The company staked two properties in the southern part of the province near the former Cape Spencer gold mine, close to the city of St. John. The Grassy Lake Claims cover a multivariate precious metal basal till anomaly (silver, gold, bismuth, antimony, tellurium) revealed in a New Brunswick Department of Natural Resources survey of basal tills. The Shanklin Road Claims enclose a basal till sampling site anomalous in various precious, base and rare metals.

**Enja Property, Quebec:** The company's 100%-owned Enja property (69 claims covering 3,830 hectares) is located in terrain for both precious and base metals. It is situated in Enjalran and Massicotte Townships, northwest Quebec, between the Detour Lake and Casa Berardi gold camps, and 35 kilometers west of the Selbaie Mine, a past producer of copper, zinc, gold and silver.

**Otish Mountains, Quebec – Marusia Property:** The company's 100%-owned, 50 claim (2,630 hectare) diamond/gold prospect is situated in the Otish Mountains region of Quebec, approximately 25 kilometers south of Stornoway Diamonds Corp.'s Foxtrot diamond deposits, and 10 kilometers north of the Eastmain Mine, a former gold producer.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
