The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Stratus Properties Inc. business.

### **About Stratus Properties Inc.**

Stratus Properties Inc. engages in the acquisition, development, management, operation and sale of commercial, multi-family and residential real estate properties located primarily in the Austin, Texas area. The company's real estate development and marketing operations are conducted through its wholly owned subsidiaries, a consolidated joint venture and through an unconsolidated joint venture.

### **Segments**

The company has operations in two segments: Real Estate Operations and Commercial Leasing. The Real Estate Operations segment is comprised of all of the company's developed properties, properties under development and undeveloped properties held for sale in Austin, Texas, which consist of its properties in the Barton Creek community, the Circle C community and Lantana, and certain portions of the W Austin Hotel & Residences project.

The Commercial Leasing segment primarily includes the two office buildings at 7500 Rialto Boulevard. The first 75,000-square-foot building at 7500 Rialto Boulevard is 97 percent leased. The second 75,000-square-foot building opened in September 2006 and is fully leased. In addition, the Commercial Leasing segment includes a retail

building completed in 2007 and a bank building completed in 2008 in Barton Creek Village, and certain portions of the W Austin Hotel & Residences project.

## Properties

The company's principal real estate holdings are in southwest Austin, Texas. It also owns undeveloped commercial property in San Antonio, Texas. The number of developed lots, developed or under development acreage and undeveloped acreage as of December 31, 2008, that comprise its principal properties are

As of December 31, 2008, the company held 983 acres of developed lots, single family, multi family and commercial holdings located within the Barton Creek community; 413 acres of developed lots, single family, and commercial holdings located within Circle C community; and 2 acres of Commercial holdings located within the W Austin Hotel & Residences community.

The company's other Austin holdings, as of December 31, 2008, consisted of two 75,000-square-foot office buildings at 7500 Rialto Boulevard (7500 Rialto) located in Lantana development, a 22,000-square-foot retail complex representing phase one of Barton Creek Village and two retail buildings totaling 21,000 square feet at the 5700 Slaughter project in Circle C.

## History

Stratus Properties Inc. was founded in 1992.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
