Such information creates your awareness about principal trends of Suffolk Bancorp business.

About Suffolk Bancorp

Suffolk Bancorp operates as the bank holding company for Suffolk County National Bank, which provides domestic, retail, and commercial banking services, and trust services. The company operates 29 full-service offices in Suffolk County, New York.

The company's primary lending area includes all of Suffolk County, New York, and a limited number of loans or loan-participations in the adjacent markets of Nassau County and New York City.

The company makes loans, which are secured by commercial real estate and float with the prime rate and other indices, and that are retained in its portfolio, including commercial and industrial loans to small manufacturers, wholesalers, builders, farmers, and retailers, including dealer financing.

The company serves as an indirect lender to the customers of various automobile dealers. It also makes loans secured by residential mortgages, and both fixed and floating rate second mortgage loans with various plans for repayment. Real estate construction loans are also offered.

The company provides checking accounts, savings accounts, time and savings

certificates, money market accounts, negotiable-order-of-withdrawal accounts, holiday club accounts, and individual retirement accounts.

The company offers secured and unsecured loans, including commercial loans to individuals, partnerships, and corporations, agricultural loans to farmers, installment loans to finance small businesses, mobile home loans, and automobile loans; home equity and real estate mortgage loans; safe deposit boxes; trust and estate services; the sale of mutual funds and annuities; and the maintenance of a master pension plan for self-employed individuals' participation.

Competition

The company competes with Bank of Smithtown, Bridgehampton National Bank, Capital One, Citibank, Bank of America, JPMorgan Chase & Co., TD Bank, and Hudson City Savings.

History

Suffolk Bancorp was founded in 1890.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
