Abstracts

Sunrex Technology Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Sunrex Technology Corp. and its competitors. This provides our Clients with a clear understanding of Sunrex Technology Corp. position in the [Computers and Electronic Equipment](#) Industry.

The report contains detailed information about Sunrex Technology Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Sunrex Technology Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Sunrex Technology Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Sunrex Technology Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Sunrex Technology Corp. business.

About Sunrex Technology Corp.

Sunrex Technology Corp. engages in the design and manufacture input devices for computer, communications and consumer electronic industries.

Products

The company designs and manufactures input devices, which are principally used in the computer industry. It provides a range of integrated services tailored to the requirements of its customers. It produces modules for assembly into customers' final products, such as notebook and desktop computers and mobile phones, as well as input devices which are sold as final products. It manufactures and sells the following products: notebook keyboard modules; mobile phone keypads; and other input devices, including wired slim keyboards, wireless keyboards, foldable keyboards, wired or wireless mice, presenters, digitizer modules and tablet monitors, products involving the use of radio frequency, and wireless input devices.

The company produces and sells keyboard modules to brandname manufacturers or their ODMs and OEMs for further assembly into notebook computers. A notebook keyboard module consists of electronic components, such as membrane circuit board

and non-electronic components, such as key caps, scissor-type frame, and bottom board. Its mobile phone keypads are sold to its customers and assembled into mobile phones. The company's slim keyboards can be connected to different devices, including desktop computers, mobile phones and personal digital assistant.

Customers

The company's products are used by brandname manufacturers, such as Apple, Asus, Cherry, Dell, Hewlett Packard, Logitech and Toshiba and its customers include original equipment manufacturers (OEMs) and original design manufacturers (ODMs), such as Compal, Foxconn, Quanta and Wistron.

Markets

The company has operations in Asia (including Taiwan); Europe; America; and Middle East.

Suppliers

The company's suppliers include Chimei; Chun Yuan Steel Industry; and Nan Ya Plastics.

Sales and Marketing

The company's sales and marketing team in Taiwan is responsible for the overall sales and marketing plan. In addition to the sales and marketing teams, the company maintains sales offices in Malaysia, Ireland and the U.S. Its sales offices in Malaysia and Ireland principally engage in providing after-sales services. Its U.S. sales office is responsible for providing after-sales services to customers located in the U.S.

Competition

The company's competitors include Darfon; Chicony; Alps Electric; and NMB Technologies.

History

Sunrex Technology Corp. was founded in 1991.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
