The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of SUPERVALU Inc. business.

## **About SUPERVALU Inc.**

SUPERVALU INC. operates as a grocery company in the United States. The company conducts its retail operations under various banners. Additionally, it provides supply chain services, primarily wholesale distribution, across the United States retail grocery channel.

### Segments

The company operates in two segments, Retail Food and Supply Chain Services.

#### Retail Food Segment

The Retail Food Segment engages in the sale of groceries at retail locations operated by the company. As of February 27, 2010, it conducted its retail food operations through a total of 2,349 retail stores, including 855 licensed Save-A-Lot stores.

The company operates 1,161 traditional retail food stores under the Acme, Albertsons, Bristol Farms, Cub Foods, Farm Fresh, Hornbacher's, Jewel-Osco, Lucky, Shaw's, Shop 'n Save, Shoppers Food & Pharmacy, and Star Market banners ranging in size from approximately 40,000 to 60,000 square feet. Its traditional retail food stores

provide a grocery ((both perishable and nonperishable) offering and additional products, including, general merchandise, health and beauty care, pharmacy, and fuel.

The company owns 333 hard-discount food stores operating under the Save-A-Lot banner and licenses an additional 855 Save-A-Lot stores to independent operators. Save-A-Lot food stores typically are approximately 15,000 square feet in size, and stock primarily custom-branded high-volume food items generally in a single size for each product sold.

### Supply Chain Services Segment

The Supply Chain Services Segment engages in wholesale distribution to independently-owned retail food stores, mass merchants and other customers, and logistics support services.

The company's supply chain services network spans 49 states and serves as primary grocery supplier to approximately 1,940 stores of independent retail customers, in addition to the company's own stores, as well as serving as secondary grocery supplier to approximately 550 stores of independent retail customers. The company's wholesale distribution customers include single and multiple grocery store independent operators, regional and national chains, mass merchants, and the military.

The company has a network of distribution centers utilizing a multi-tiered logistics system. The network includes facilities that carry slow turn or fast turn groceries, perishables, general merchandise, and health and beauty care products. In addition, the company provides certain facilitative services between its independent retailers and vendors related to products that are delivered directly by suppliers to retail stores under programs established by the company. These services include sourcing, invoicing, and payment services.

The company also offers third-party logistics solutions through its subsidiary, Total Logistics, Inc. and its Advantage Logistics operations. These operations provide customers with a suite of logistics services, including warehouse management, transportation, procurement, contract manufacturing and logistics engineering, and management services.

### Private-Label Products

The company's private-label products are produced to its specification by various

suppliers. Private-label products include the brand Culinary Circle; first tier brands, including Wild Harvest, Flavorite, Richfood, equaline, and HomeLife; and the value brand, Shopper's Value.

### Significant Events

On September 15, 2010, Tata Consultancy Services Limited has entered into a multi-year agreement with Supervalu Inc. for a full service engagement.

### History

SUPERVALU INC. was founded in 1871.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
