The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Synergex Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Synergex Corp. business.

About Synergex Corp.

Synergex Corporation provides supply chain management solutions, specializing in logistics and distribution in the Americas.

Synergex' logistics and distribution operation is the core of the company's business and delivers a value-added suite of supply chain management solutions for manufacturers and retailers, primarily in the computer and home entertainment sector. It provides a solution for accessing the Canadian and Latin American retail markets, and distributes video games, game consoles, and accessories in Canada.

Synergex' customers include computer entertainment publishers and various mid-sized manufacturers, including Sony Computer Entertainment America, Activision, Inc., Electronic Arts Inc., Midway Games Inc., Square Enix, Inc., Atari, Inc., NC Interactive, Inc. and LucasArts, A Division of Lucasfilm Entertainment Company Ltd.

In 2008, the company expanded its product offering to include other home entertainment products, including home video by entering into distribution relationships with Gaiam, Inc. and World Wrestling Entertainment, Inc.

Under the non-core umbrella of Synergex Business Services, the company provides

credit and payment verification services, to help customers improve receivables and balance sheet management through informed credit decisions, and accept various methods of payment for purchases.

Principal Products

The company is a distributor of electronic entertainment products. In 2008, through its various subsidiaries, Synergex was engaged in providing supply chain management services, including third-party logistics services. The majority of Synergex' product and services offering is focused on electronic goods including but not limited to video game software, hardware and accessories, stored value cards, and personal audio equipment.

Secondary Products

Synergex Business Services (operating through Lumbermen's Credit Bureau Limited and its Synergex Business Credit Reporting division), offers credit and payment verification services, to help customers improve receivables and balance sheet management through informed credit decisions, and process various methods of payments for sales. The company targets the construction, computer, transportation, food, and drug industries. Products and services include commercial credit reporting, risk rated reports, online credit access, project reports, Credit Groups, corporate searches, weekly and online lien information and registrations and searches under the Personal Property Security Act (Ontario). POS terminals and processing services were added as a new product line in January 2008 providing payment services for VISA, Mastercard, and Interac.

Competition

The company's competitors include Dun & Bradstreet Companies, Trans Union, Equifax, and Experian.

History

Synergex Corporation was founded in 1986.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need

2-3 days to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
