term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes T Bancshares, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of T Bancshares, Inc. business.

About T Bancshares, Inc.

T Bancshares, Inc. operates as the holding company for T Bank, N.A., which provides various commercial and consumer banking services to small- to medium-sized businesses, independent single-family residential and commercial contractors, and consumers.

The company offers a range of deposit services, including demand deposits, regular savings accounts, money market accounts, NOW, individual retirement accounts, and certificates of deposit with fixed rates and a range of maturity options. These services are provided through various delivery systems, including automated teller machines, private banking, telephone banking, and Internet banking.

Market Area

The company's primary service areas include North Dallas, Addison, Plano, Frisco, Southlake, Grapevine, and the neighboring Texas communities. It serves these markets from three locations, one of which is a loan production office.

Lending Activities

The company offers various lending products, including commercial loans to small- to medium-sized businesses and professional concerns and consumer loans to individuals.

Real Estate Loans

The company makes commercial real estate loans, construction and development loans, small business loans, and residential real estate loans.

Construction and development loans: The company makes construction and development loans on a pre-sold and speculative basis.

Commercial real estate: The company makes commercial real estate loans to owner occupants of the real estate held as collateral.

Residential real estate: The company's residential real estate loans consist of loans to acquire and renovate existing homes for subsequent re-sale, residential new construction loans, second mortgage loans, and traditional mortgage lending for one-to-four family residences.

Commercial Loans: The targets in the commercial loan markets are retail establishments, professional service providers, and small-to medium-sized businesses.

Consumer Loans

Loans for commercial purposes in various lines of businesses are a major component of the company's loan portfolio. The targets in the commercial loan markets are retail establishments, professional service providers, in particular dentists, and small-to medium-sized businesses.

Consumer Loans

The company makes various loans to individuals for personal, family, and household purposes, including secured and unsecured installment and term loans, second mortgages, home equity loans, and home equity lines of credit.

Trust Services

The company offers traditional fiduciary services, such as serving as executor, trustee,

agent, administrator or custodian for individuals, nonprofit organizations, employee benefit plans, and organizations.

Other Banking Services

The company's other banking services include cashier's checks, travelers' checks, direct deposit of payroll and social security payments, bank-by-mail, remote check deposits, automated teller machine cards, and debit cards.

Investments

The company invests a portion of its assets in U.S. treasuries, government agency mortgage backed securities, direct obligations of quasi government agencies, including Fannie Mae, Freddie Mac, the Federal Home Loan Bank, and federal funds sold.

History

T Bancshares, Inc. was founded in 2002.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
