Abstracts

Catalyst Biosciences, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Catalyst Biosciences, Inc. and its competitors. This provides our Clients with a clear understanding of Catalyst Biosciences, Inc. position in the [Pharmaceuticals and Biotechnology](#) Industry.

The report contains detailed information about Catalyst Biosciences, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Catalyst Biosciences, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Catalyst Biosciences, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Catalyst Biosciences, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Catalyst Biosciences, Inc. business.

About Catalyst Biosciences, Inc.

Targacept, Inc., a biopharmaceutical company, engages in the design, discovery, and development of NNR Therapeutics for the treatment of diseases and disorders of the central nervous system. The company's NNR Therapeutics selectively target neuronal nicotinic receptors (NNRs).

TC-5214

TC-5214 is a nicotinic channel blocker that is thought to derive antidepressant activity by modulating the activity of various NNR subtypes. In 2009, it completed a Phase 2b clinical trial of TC-5214 as an adjunct, or add-on, therapy in subjects with major depressive disorder who did not respond well to first-line treatment with a representative medicine from the drug class known as selective serotonin reuptake inhibitors. In 2009, the company entered into a collaboration and license agreement with AstraZeneca AB for the global development and commercialization of TC-5214.

AZD3480 (TC-1734) and AZD1446 (TC-6683)

AZD3480 (TC-1734) and AZD1446 (TC-6683) are both small molecules that modulate

the activity of the $\alpha 4\beta 2$ NNR. It has a collaborative research and license agreement with AstraZeneca AB for the development and worldwide commercialization of AZD3480 and AZD1446 as treatments for various conditions characterized by cognitive impairment.

In 2009, the company and AstraZeneca completed a Phase 2 clinical trial of AZD3480 in adults with ADHD in which AZD3480 met the primary outcome measure.

The company discovered AZD1446 as part of a multi-year research collaboration conducted under its agreement with AstraZeneca. AstraZeneca completed multiple Phase 1 clinical trials of AZD1446 in 2009 and has various additional clinical trials ongoing, including a clinical trial designed to assess safety and tolerability in subjects with Alzheimer's disease and a Phase 2 clinical trial in adults with ADHD.

TC-5619

TC-5619 is a small molecule that modulates the activity of the $\alpha 7$ NNR. It initiated a Phase 2 clinical trial of TC-5619 in cognitive dysfunction in schizophrenia in 2009 pursuant to a development plan that it agreed upon with AstraZeneca.

TC-6987

TC-6987 is a small molecule that modulates the activity of the $\alpha 7$ NNR. The company is conducting Phase 1 clinical development of TC-6987.

Agreements

The company has a product development and commercialization agreement with SmithKline Beecham Corporation, doing business as GlaxoSmithKline, and Glaxo Group Limited.

Competition

The company's competitors include Pfizer; AstraZeneca; Eli Lilly; Sanofi-Aventis; Wyeth; Bristol-Myers Squibb/Otsuka; GlaxoSmithKline; Johnson & Johnson; Novartis; NeuroSearch A/S; Solvay; Servier; CoMentis; EnVivo Pharmaceuticals; Xytis; Galantos Pharma; Forest Laboratories; Eisai; and Shire.

History

Targacept, Inc. was founded in 1982.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
