Such information creates your awareness about principal trends of TASCOS Berhad business.

## **About TASCOS Berhad**

TASCOS Berhad and its subsidiaries provide logistics solutions worldwide. The company offers airfreight forwarding services, including air importation and exportation, customs broking, hand carry delivery, and door-to-door delivery under the Yusen Global Logistics Air & Sea Service name. It also provides sea freight forwarding services comprising reserving space with steamship/liners and advertisement of regular shipping schedule; arrangement of port to port ocean transportation; door-to-door services; consolidating shipments; preparation of shipping documents and arrangement of marine insurance; and advisory services. In addition, the company operates a fleet of approximately 165 trucks under the Harimau Express name offering bonded transportation, daily cross border delivery, scheduled collection and distribution, and over-night inter-state delivery services, as well as provides truck rental and insurance agency services. Further, the company offers customs broking and coordinating services for the movement of sea cargoes from their point of origin to their intended destination; haulage transportation services with a fleet of approximately 30 prime movers and 255 trailers; and automotive logistics services, such as custom broking, bonded and non-bonded storage, parts distribution, transportation by car carrier, and pre-delivery inspection, washing, de-waxing, polishing, and general technical services. Additionally, it provides warehousing services; and offers systems and solutions for integrated supply chain management, including origin cargo order management, vendor compliance, track and trace of cargo,

supply chain security assurance, and discrepancy reporting and project management. The company was formerly known as Trans-Asia Shipping Corporation Berhad and changed its name to TASCOS Berhad in September 2009. TASCOS Berhad was incorporated in 1974 and is headquartered in Shah Alam, Malaysia. TASCOS Berhad operates as a subsidiary of Nippon Yusen Kabushiki Kaisha.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
