Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Tasty Baking Co. business.

About Tasty Baking Co.

Tasty Baking Company manufactures, co-packages, and sells a variety of single portion cakes, pies, donuts, snack bars, pretzels, and brownies under the trademark, TASTYKAKE.

The company's products are comprised of approximately 169 varieties. The individual pies include various fruit and cream-filled varieties and, at certain times of the year, additional seasonal varieties. The products with the sales acceptance are sponge cakes marketed under the trademarks JUNIORS and KRIMPETS, and chocolate enrobed cakes under KANDY KAKES. The company produces a line of sugar-free single portion cakes and snack bars under the name TASTYKAKE Sensables.

Tasty Baking Oxford, Inc., a wholly-owned subsidiary of the Company, manufactures honey buns, donuts, mini donuts and donut holes under the trademark TASTYKAKE. Oxford also manufactures several products which are distributed under private labels.

The company's products are sold principally by independent sales distributors through distribution routes to approximately 16,000 retail outlets in Delaware, Maryland, New Jersey, New York, Ohio, Pennsylvania and Virginia, which comprise the company's main market.

The company also distributes its products through third party distributor arrangements in New York, New England, Florida, Virginia, Georgia and North Carolina, as well as, directly to certain grocery chains that have centralized warehouse distribution capabilities throughout the continental United States and Puerto Rico. In addition, the company sells its products through the www.tastykake.com program, whereby consumers can visit the company's website to order a variety of Tastykake gift packs for delivery to homes and businesses.

Competition

The company principally competes in the premium snack cake market with McKee Foods Corporation, Little Debbie, Bimbo USA and Hostess Brands.

History

Tasty Baking Company was incorporated in 1914.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
