About Tele Norte Celular Participações S.A.

Tele Norte Celular Participacoes S.A. provides cellular telecommunications services in a region covering the states of Pará, Amazonas, Maranhão, Amapá, and Roraima in the north and northeast of Brazil.

Services

The company's mobile services use the 2G technology. It is involved in the process of overlaying GSM

technology onto its TDMA/Advanced Mobile Phone System, or AMPS, network, which incorporates updated versions of Enhanced Data Rates for Global Evolution, or EDGE, technology for data transmission. The company offers GSM service to subscribers in 159 localities.

The company offers digital service (TDMA and/or GSM) to subscribers in all the cities in its area, covering 213 locations.

The company's client base operates on GSM network, and the other clients would undergo migration. Its introduction of GSM/EDGE service for subscribers is improving data transmission speed and establishing a base for the sale of continuously evolving mobile products and services. In November 2004, the company began offering GSM/EDGE technology services in certain parts of its area.

The company offers a series of services to prepaid and contract subscribers, as well as business solutions to corporate users. It launched a mobile media application in Latin America named Se Liga, which broadcasts products, services and promotions in the cellular screen when the equipment is idle, through silent and non intrusive messages. In 2007, the company launched new value added service, such as full track downloads, missed call notice, video downloads and mobile payment services.

Through agreements with other mobile service providers, the company offers automatic voice and data roaming services throughout Brazil to its subscribers that allow them to make and receive calls while out of its area. The company has implemented 104 bilateral international roaming agreements in 129 countries for roaming on GSM networks. In addition, the company provides mobile telecommunications services to subscribers of other mobile service providers while they are in its area.

Subscribers

Contract and Prepaid Market: As of December 31, 2007, the company had 1,416,619 subscribers. Its customers' base consists of contract subscribers, who pay a monthly fee to enroll in one of the company's rate plans and who are invoiced monthly after services have been provided to them; and prepaid customers who purchase in advance cards that contain a specified number of airtime credits that can normally be used within the 180 day period after the prepaid card is activated. Its contract subscribers consist primarily of higher income individuals who use their handsets for both personal and business purposes.

Sales and Marketing

Independent Distributors: As of December 31, 2007, the company had 530 independent distributors' points-of-sales, located primarily in metropolitan centers. Its independent retail network includes retail chains, drugstores and supermarkets with points of sale and active sales promotions.
