TETRA Technologies Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between TETRA Technologies Inc. and its competitors. This provides our Clients with a clear understanding of TETRA Technologies Inc. position in the **Energy Industry**.

- The report contains detailed information about TETRA Technologies Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.
- Another part of the report is a SWOT-analysis carried out for TETRA Technologies Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.
- The TETRA Technologies Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.
- In the part that describes TETRA Technologies Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.
- Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of TETRA Technologies Inc. business.

About TETRA Technologies Inc.

TETRA Technologies, Inc. operates as a diversified oil and gas services company.

DIVISIONS

The company operates in three divisions, including Fluids, Offshore, and Production Enhancement.

FLUIDS DIVISION

The Fluids Division manufactures and markets clear brine fluids, additives, and other associated products and services to the oil and gas industry for use in well drilling, completion, and workover operations both in the United States and in certain regions of Latin America, Europe, Asia, and Africa. The Division also markets certain fluids and dry calcium chloride manufactured at its production facilities to various markets outside the energy industry.

Products and Services

The Fluids Division offers liquid calcium chloride, sodium bromide, calcium bromide, zinc bromide, and similar products, which are referred to as clear brine fluids (CBFs) in the oil and gas industry.

The Fluids Division provides basic and custom blended CBFs to domestic and international oil and gas well operators, based on the specific need of the customer and the proposed application of the product. It also provides these customers with a range of associated services, including onsite fluid filtration, handling, and recycling; wellbore cleanup; fluid engineering consultation; and fluid management, including high volume water transfer services in support of high pressure fracturing processes. The company also offers to repurchase (buyback) used CBFs from customers, which it then reconditions and recycles. The company reconditions the CBFs through filtration, blending, and the use of proprietary chemical processes, and then markets the reconditioned CBFs.

The Fluids Division produces CBFs from its production facilities that manufacture liquid and dry calcium chloride, sodium bromide, calcium bromide, zinc bromide and zinc calcium bromide for distribution into energy markets. Liquid and dry calcium chloride are also sold into the water treatment, industrial, cement, food processing, dust control, ice melt, agricultural, and consumer products markets. Liquid sodium bromide is also sold into the industrial water treatment markets, where it is used as a biocide in recirculated cooling tower waters. The company also has approximately 33,000 gross acres of bromine-containing brine reserves in Magnolia, Arkansas.

OFFSHORE DIVISION

Offshore Division consists of two operating segments, Offshore Services and Maritech.

The Offshore Services segment provides downhole and subsea services, such as plugging and abandonment, workover, and wireline services; construction and decommissioning services, including hurricane damage remediation, utilizing its heavy lift barges and cutting technologies in the construction or decommissioning of offshore oil and gas production platforms and pipelines; and diving services involving conventional and saturated air diving and the operation of several dive support vessels.

The Maritech segment consists of the company's Maritech Resources, Inc. (Maritech) subsidiary, which, with its subsidiaries, is an oil and gas exploration and production company focused in the offshore, inland waters, and onshore U.S. Gulf Coast region. Maritech periodically acquires oil and gas properties to replenish or expand its production operations and to provide additional development and exploitation opportunities.

The company offers integrated solutions to its customers, including engineering consultation and project management services. It provides individualized services to meet its customers' specific requirements. The Maritech segment is an oil and gas exploration and production company focused in the offshore, inland waters, and onshore regions of the U.S. Gulf of Mexico. Maritech periodically acquires oil and gas properties to replenish or expand its production and to provide additional development and exploitation opportunities. The Offshore Division's Offshore Services segment performs a significant portion of the well abandonment and decommissioning services required by Maritech, and Maritech is a significant customer of the Offshore Services segment.

The Division provides various contract diving servic

The above Company Fundamental Report is a half-ready report and contents are subject to change. It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.
