Abstracts

TetriDyn Solutions, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between TetriDyn Solutions, Inc. and its competitors. This provides our Clients with a clear understanding of TetriDyn Solutions, Inc. position in the [Software and Technology Services](#) Industry.

The report contains detailed information about TetriDyn Solutions, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for TetriDyn Solutions, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The TetriDyn Solutions, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes TetriDyn Solutions, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of TetriDyn Solutions, Inc. business.

About TetriDyn Solutions, Inc.

TetriDyn Solutions, Inc. provides business information technology (IT) solutions for the healthcare industry.

IT Solutions

The company's IT solutions range from full-service IT management to the sale of software and hardware products. It categorized its solutions into four interrelated and complimentary areas, including technology solutions; consulting solutions; cloud computing solutions; and radio frequency identification (RFID) solutions.

Technology Solutions

The company markets its proprietary AeroMD EMR product nationwide through direct marketing and a group of Value-Added Resellers (VARs). Its AeroMD EMR offers medical offices the wireless ability to perform all office tasks from scheduling and examinations to prescription and billing processes.

The company offers a proprietary product targeted specifically for hospital environments called Charge Catcher. Charge Catcher is a tool that uses artificial intelligence

techniques to detect potential missing charges before the invoice is even generated.

The company operates as a Value Added Reseller (VAR) for four McKesson Corporation healthcare software and service packages, including Medisoft PMS, Lytec PMS, Practice Partner PMS and EMR system, and RelayHealth patient/physician portal. Additionally, it provides custom software development for specialized EMR charts, customized PMS reports, and interfaces for other software systems.

Consulting Solutions

The company provides either the management or the outsourcing of their internal IT department. It provides a hybrid approach using methodologies born from systems engineering, software engineering, engineering management, and project management. IT services that the company provides to its customers include IT infrastructure assessment; IT strategic planning; network optimization; engineering & software services; systems lifecycle engineering; and technology contract review.

Services offered include engineering of complex IT systems; business process improvement; infrastructure assessment and improvement; IT planning; optimization of software and hardware systems; network optimization; and lifecycle management.

The company provides customers the ability to purchase computer and networking equipment, installation services, and follow-on support necessary for successful operation. It provides remote and onsite product support and training for each of its offered software products. Support can be purchased in either support contracts or on a per-hour basis. Its product support contracts provide product support and annual product upgrades for the term of the contract.

Cloud/Hosting Computing Solutions

The company intends to provide cloud computing to its customers. Cloud computing is a technology innovation that enables computing power and services to be delivered and accessed through the Internet, provided as a service instead of as a product.

RFID Solutions

The company pursues RFID, technologies in the livestock industry to provide tracking and data collection on individual animals. It intends to become a manufacturer of RFID products using its proprietary technology in the development of healthcare products.

Discontinued Operations

In October 2009, the company discontinued its operations in its livestock segment.

History

TetriDyn Solutions, Inc. was founded in 2000.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
