Abstracts

Texas Rare Earth Resources Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Texas Rare Earth Resources Corp. and its competitors. This provides our Clients with a clear understanding of Texas Rare Earth Resources Corp. position in the Industry.

The report contains detailed information about Texas Rare Earth Resources Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Texas Rare Earth Resources Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Texas Rare Earth Resources Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Texas Rare Earth Resources Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Texas Rare Earth Resources Corp. business.

About Texas Rare Earth Resources Corp.

Texas Rare Earth Resources Corp., an exploration stage company, engages in the acquisition, exploration, and development of mineral properties.

The company has interests in mineral properties located in Idaho, New Mexico, and Texas. It has also acquired a 28% limited liability company interest in La Cañada Mining and Exploration, LLC (La Canada). Through its interest in La Canada, the company has the ability to participate in the exploration, development, and operation of metallic and non-metallic mineral deposits.

Properties

The company has acquired an interest in five mineral properties, including the King Mine located in Boise County, Idaho; the Macho Mine, located in Sierra County, New Mexico; the Round Top Beryllium deposit located in Hudspeth County, Texas; the Gambrinus District located in Boise County, Idaho; and the Banner Extension located in Boise County, Idaho. La Canada holds interests in three properties both in the U.S. and Mexico, including the Orogrande Industrial Garnet deposit, Otero, New Mexico; Sierra Mojada, Coahuila, Mexico; and the Old Hadley district, Luna County, New Mexico.

Boise Basin Gold Project, Boise County, Idaho: The Boise Basin constitutes the drainage basin west and north of the town of Idaho City, Idaho. The company has under lease 16 unpatented mining claims covering 5 historic gold mines, in the Gambrinus mining district and 5 unpatented mining claims and 1 millsite in the Summit Flat District.

Gambrinus District: The Gambrinus district is located between Elk and Mores creeks northeast of Idaho City, Idaho. The leased claims cover the Boulder, Illinois, Lucky Boy, Mascot, and Texida mines.

King Mine: The King Mine is located on the drainage divide between Grimes and Elk Creeks at elevations of between 7,200 and 7,800 feet above sea level. The King property consists of five unpatented mining claims and one unpatented mill site.

Banner Extension Property: The Banner extension claim group consists of 14 unpatented mining claims located on the southeast extension of the Banner veins.

The Macho Mine, Sierra County, New Mexico: Macho is held by 12 unpatented claims. The principal mine in the district is known as the Old Dude Mine and consists of two shafts, one 300 feet deep and another 500 feet deep.

The Round Top Beryllium Deposit, Hudspeth County, Texas: The company has purchased the prospecting permits covering Sections 5, 7, 8, and 18 of Block 71, and most of Sections 12 and 13 of block 72, Hudspeth County, Texas.

La Cañada Mining and Exploration Properties

The Old Hadley District, Luna County, New Mexico: The company owns 45 unpatented mining claims in the Old Hadley Mining District in northern Luna County, New Mexico.

The Orogrande Industrial Garnet Deposit, Otero County, New Mexico: The Orogrande Mining District is located in southwest Otero County, New Mexico, approximately three miles north-northwest of the small town of Orogrande.

Sierra Mojada, Coahuila, Mexico: The Sierra Mojada Mining District is located in the west central part of the state of Coahuila, Mexico, near the Coahuila-Chihuahua State border approximately 200 kilometers south of the U.S. border. The project area covers a property position of 109 hectares, consisting of 1 block of 4 contiguous mining claims, and 2 separate mining claims, La India Dos of 9.84 hectares, and La Perla of 27.82

hectares.

History

The company was incorporated in 1970. It was formerly known as Standard Silver Corporation and changed its name to Texas Rare Earth Resources Corp. in September 2010.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
