company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes TF Financial Corporation competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of TF Financial Corporation business.

## **About TF Financial Corporation**

TF Financial Corporation operates as the holding company for Third Federal Bank, which provides a range of banking and financial services in Pennsylvania and New Jersey.

### **Market Area**

As of December 31, 2009, the company operated 14 branch offices in Bucks and Philadelphia Counties, Pennsylvania, and in Mercer County, New Jersey.

The company attracts deposits from the general public and uses such deposits, together with borrowings and other funds, to originate or purchase loans secured by first mortgages on owner-occupied, one-to-four family residences in its market area, and to invest in mortgage-backed and investment securities. It also originates commercial real estate and multi-family, construction, and consumer loans.

### **Lending Activities**

**One-to-Four Family Mortgage Lending:** The company offers first mortgage loans secured by one-to-four family residences in its lending area. Such residences are single-

family homes that serve as the primary residence of the owner. It originates and invests in one-to-four family residential mortgage loans.

**Commercial Real Estate and Multi-Family Lending:** The company originates loans secured by commercial real estate, including non-owner occupied residential, multi-family dwelling units, professional office buildings, and hotels/motels.

**Construction and Land Acquisition Lending:** The company also offers construction and land acquisition loans.

**Consumer and Other Loans:** The company offers consumer and other loans in the form of home equity and second mortgage loans, automobile loans, and student loans. It originates consumer loans through its retail banking channel and mortgage loan department. The company offers second mortgage loans on one-to-four family residences.

**Business Lending:** The company makes commercial business loans on a secured or guaranteed basis. Its commercial business loans consist of short-term loans for equipment, working capital, business expansion, and inventory financing, and have some real estate collateral.

### Mortgage-Backed Securities

The company invests primarily in residential mortgage-backed securities. The mortgage-backed securities portfolio as of December 31, 2009, consisted of pass-through certificates issued by the Federal Home Loan Mortgage Corporation (FHLMC), Government National Mortgage Association (GNMA), Federal National Mortgage Association (FNMA), real estate mortgage investment conduits (REMICs) formed from pass-through certificates issued by these same agencies, and issued by private issuers. Its mortgage-backed securities which are so-called pass-through represent a participation interest in a pool of single-family or multi-family mortgages, the principal and interest payments on which are passed through intermediaries (generally quasi-governmental agencies) to investors.

### Investment Securities

The company invests in various types of assets, including the U.S. Treasury obligations, securities of various federal agencies, certain certificates of deposit of insured banks and savings institutions, certain bankers acceptances, repurchase agreements, loans

on federal funds, and, subject to certain limits, commercial paper, and mutual funds.

## Deposits

The company offers various deposit products, including regular savings, non-interest bearing checking, NOW checking, money market, passbook accounts, and certificate accounts.

## History

TF Financial Corporation was founded in 1921.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
