The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of TFS Financial Corp business.

About TFS Financial Corp

TFS Financial Corporation operates as the holding company for Third Federal Savings and Loan Association of Cleveland, which provides retail consumer banking services, including mortgage lending, deposit gathering, and other insignificant financial services in Ohio and Florida.

The company's principal business consists of originating and servicing residential real estate mortgage loans, home equity loans, lines of credit, and attracting retail savings deposits. It conducts its operations from its main office in Cleveland, Ohio, and from 39 additional, full-service branches and 8 loan production offices located throughout the states of Ohio and Florida. In Ohio, its 22 full-service offices are located in the northeast Ohio counties of Cuyahoga, Lake, Lorain, Medina, and Summit; 4 loan production offices are located in the central Ohio county of Franklin (Columbus, Ohio); and 4 loan production offices are located in the southern Ohio counties of Butler and Hamilton (Cincinnati, Ohio). In Florida, 17 full-service branches are located in the counties of Pasco, Pinellas, Hillsborough, Sarasota, Lee, Collier, Palm Beach, and Broward.

Lending Activities

The company's principal lending activity is the origination of first mortgage loans to

purchase or refinance residential real estate. It also originates equity loans and equity lines of credit, and residential construction loans.

Residential Real Estate Mortgage Loans: The company offers fixed-rate conventional mortgage loans with terms of up to 30 years that are fully amortizing with monthly loan payments, and adjustable-rate mortgage loans that amortize over a period of approximately 30 years, provide an initial fixed interest rate for one, three, or five years and then adjust annually. It also offers adjustable-rate mortgage loan products secured by residential properties.

Home Equity Loans and Home Equity Lines of Credit: The only home equity lending product that the company offers are bridge loans, where a borrower can utilize the existing equity in their current home to fund the purchase of a new home before the current home is sold. Bridge loans are originated for a one-year term, with no prepayment penalties.

Construction Loans: The company originates construction loans for the purchase of developed lots and for the construction of single-family residences. Construction loans are offered to individuals for the construction of their personal residences by a qualified builder (construction/permanent loans), and to qualified builders (builder loans). Its construction/permanent loans generally provide for disbursements to the builder or sub-contractors during the construction phase as work progresses.

Investment Portfolio

As of September 30, 2010, the company's investment portfolio included U.S. government and agency obligations; Freddie Mae certificates; Ginnie Mae certificates; real estate mortgage investment conduits; and Fannie Mac certificates.

Deposits

The company offers various deposit accounts with a range of interest rates and terms. Its deposit accounts consist of savings accounts (primarily high-yield savings), NOW accounts (primarily high-yield checking accounts), certificates of deposit, individual retirement accounts, and other qualified plan accounts.

Subsidiaries

The company's other principal wholly owned subsidiary is Third Capital, Inc., which is a

minority investor or partner in other entities, including minority investments in private equity funds, including Hazelmere Investment Group I, Ltd., which engages in net lease transactions of commercial buildings in targeted United States markets; Third Cap Associates, Inc., which maintains minority investments in private equity funds, and owns between 49% and 60% of two title agencies that provide escrow and settlement services in the state of Ohio, primarily to customers of the company; and Third Capital Mortgage Insurance Company, which reinsures private mortgage insurance on residential mortgage loans originated by the company.

History

TFS Financial Corporation was founded in 1938.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
