Such information creates your awareness about principal trends of TIB Financial Corp. business.

About TIB Financial Corp.

TIB Financial Corp., through its wholly-owned subsidiaries, offers a range of commercial, retail, and private banking and trust, investment management, and other financial services to businesses, individuals, and families. The company's subsidiaries include TIB Bank and Naples Capital Advisors, Inc. As of December 31, 2009, the company had 28 banking offices in Florida that were located in Monroe, Miami-Dade, Collier, Lee, and Sarasota counties.

Services

BANKING SERVICES

Commercial Banking: The company focuses its commercial loan originations on small and mid-sized businesses. It offers a range of commercial loan products, including owner-occupied commercial real estate construction and term loans; working capital loans and lines of credit; demand, term and time loans; and equipment, inventory and accounts receivable financing. It offers a range of cash management services and deposit products to commercial customers.

Retail Banking: Retail banking activities emphasize on providing customer service and

cross selling multiple services to its customer base. In addition to traditional products and services, it offers Internet banking services. Consumer loan products offered by the company include home equity lines of credit, second mortgages, new and used auto loans, new and used boat loans, overdraft protection, and unsecured personal credit lines.

Mortgage Banking: The company's mortgage banking capabilities include conventional and nonconforming mortgage underwriting; and construction and permanent financing.

Private Banking, Trust, and Investment Management: Through private banking, the company offers deposit products tailored to meet the needs of the wealthy, along with lines of credit and traditional mortgage financing. These banking services are typically integrated with professional investment management and personal trust services. It targets affluent clients, business owners, and retirees.

Lending Activities

The company offers various types of commercial loans, including owner-operated commercial real estate; acquisition, development and construction; income-producing properties; short-term working capital; inventory and receivable facilities; and equipment loans. It also offers a complement of consumer loan products. Its lending focus is on small to medium-sized business, private banking clients, and consumer borrowers.

Commercial Real Estate Mortgage Loans: The company originates commercial mortgages primarily by hotels, guesthouses, restaurants, retail buildings, and general purpose business space.

Commercial Loans: The company originates secured and unsecured loans for business purposes. Loans are made for acquisition, expansion, and working capital purposes and secured by real estate, accounts receivable, inventory, equipment or other assets.

Construction Loans: The company provides interim real estate acquisition development and construction loans to builders, developers, and other persons who would occupy the building. Real estate development and construction loans to provide interim financing on the property are based on acceptable percentages of the appraised value of the property securing the loan in each case. Loans to individuals for the construction of their primary or secondary residences are secured by the property under construction.

Residential Real Estate Mortgage Loans: The company originates adjustable and fixed-rate residential mortgage loans through its mortgage banking operations. These mortgage loans are originated under terms, conditions and documentation acceptable to the secondary mortgage market.

Indirect Auto Loans: The company's indirect auto loans are concentrated in Fort Myers, Lee County areas.

Other Consumer Loans and Home Equity Loans: The company offers various consumer loans. These loans are collateralized by residential real estate or personal property, including automobiles and boats.

Deposits

The company's deposit account services include checking, interest-bearing checking, money market, savings, certificates of deposit, and individual retirement accounts.

PRIVATE BANKING, WEALTH MANAGEMENT, AND TRUST SERVICES

The company offers private banking and trust services through professionals who provide clients customized financial solutions. It also delivers investment management services to individuals, families, trust, and non-profit organizations through Naples Capital Advisors, Inc.

Investment Portfolio

As of December 31, 2009, the company's investment portfolio included the U.S. government agencies and corporations; states and political subdivisions; marketable equity securities; mortgage-backed securities; corporate bonds; and collateralized debt obligations.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
