Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Tiffany & Co. business.

## **About Tiffany & Co.**

Tiffany & Co., through its subsidiaries, engages in the design, manufacture, and retail of fine jewelry. The company's principal product category is jewelry. It also sells timepieces, sterling silver goods (other than jewelry), china, crystal, stationery, fragrances, and personal accessories. Tiffany offers a selection of TIFFANY & CO. brand jewelry at a range of prices.

The company also sells TIFFANY & CO. brand merchandise in various categories: timepieces and clocks; sterling silver merchandise, including flatware, hollowware (tea and coffee services, bowls, cups and trays), trophies, key holders, picture frames and desk accessories; stainless steel flatware; crystal, glassware, china and other tableware; custom engraved stationery; writing instruments; and fashion accessories. Its fragrance products are sold under the trademarks TIFFANY, PURE TIFFANY, and TIFFANY FOR MEN. Tiffany also sells other brands of timepieces and tableware in its stores in the U.S.

## **Segments**

The company operates through four segments, including the Americas, the Asia Pacific, Europe, and Other.

The Americas includes sales in TIFFANY & CO. stores in the United States, Canada, and Latin/South America, as well as sales of TIFFANY & CO. products in certain of those markets through business-to-business, Internet, catalog, and wholesale operations.

The Asia-Pacific includes sales in TIFFANY & CO. stores in that region, as well as sales of TIFFANY & CO. products in certain markets through business-to-business, Internet and wholesale operations.

Europe includes sales in TIFFANY & CO. stores in that region, as well as sales of TIFFANY & CO. products in certain markets through business-to-business, Internet and wholesale operations.

Other consists primarily of wholesale sales of diamonds obtained through bulk purchases that were subsequently deemed not suitable for the company's needs. Other also includes earnings received from a licensing agreement with Luxottica Group for the distribution of TIFFANY & CO. brand eyewear.

## Suppliers

The company purchases diamonds from Diamond Trading Company, an affiliate of De Beers S.A., the Luxembourg-based holding company of the De Beers Group.

## History

Tiffany & Co. was founded by Charles Lewis Tiffany in 1837.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
