company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Timberland Bancorp Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Timberland Bancorp Inc. business.

### **About Timberland Bancorp Inc.**

Timberland Bancorp, Inc. operates as the holding company for Timberland Bank, which provides various banking products and services to retail customers in Washington.

The bank attracts deposits from the general public, and uses those funds, along with other borrowings, to provide residential real estate, construction, commercial real estate, land, commercial business, and consumer loans to borrowers primarily in western Washington and to invest in securities. As of September 30, 2010, the bank operated 22 full service facilities in Grays Harbor, Pierce, Thurston, Kitsap, King, and Lewis counties in Washington State.

The bank has one wholly-owned subsidiary, Timberland Service Corporation, whose primary function is to act as the bank's escrow department and offer non-deposit investment services.

#### **Lending Activities**

**Residential One- to- Four Family Lending:** The bank offers loans secured by one- to four-family residences. It originates both fixed-rate loans and adjustable rate mortgage (ARM) loans.

**Construction and Land Development Lending:** The bank originates three types of residential construction loans: custom construction loans, owner/builder construction loans, and speculative construction loans. It also originates construction loans for the development of multi-family and commercial properties. The bank also provides construction financing for multi-family and commercial properties.

**Multi-Family Lending:** The bank also originates loans secured by multi-family dwelling units (approximately four units) located primarily in its primary market area.

**Commercial Real Estate Lending:** The bank originates commercial real estate loans generally at variable interest rates and the loans are secured by properties, such as restaurants, motels, mini-storage facilities, office buildings, and retail/wholesale facilities, located in its primary market area.

**Consumer Lending:** The bank's consumer loans include home equity lines of credit, second mortgage loans, savings account loans, automobile loans, boat loans, motorcycle loans, recreational vehicle loans, and unsecured loans. Consumer loans are made with both fixed and variable interest rates and with varying terms. Home equity lines of credit and second mortgage loans are made for purposes, such as the improvement of residential properties, debt consolidation, and education expenses.

**Commercial Business Lending:** The bank's commercial business loans are secured by business equipment, accounts receivable, inventory, or other property.

## Investments

As of September 30, 2010, the bank's investment portfolio included U.S. agency securities; mortgage-backed securities; and mutual funds.

## Deposits

The bank offers a selection of deposit instruments, including money market deposit accounts, checking accounts, regular savings accounts, and certificates of deposit.

## History

Timberland Bancorp, Inc. was founded in 1915.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
