The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of TNT NV business.

About TNT NV

TNT N.V. provides delivery solutions for customers in the transportation and distribution industry. The company serves approximately 200 countries.

The company transfers goods and documents around the world tailored to its customers' requirements with a focus on time-certain and/or day-certain pick up and delivery. It picks up, transports, sorts, handles, stores and delivers documents, packets, parcels, and freight by combining physical infrastructures, such as depots and trucks, electronic infrastructures, such as billing and track-and-trace systems, and commercial infrastructures to attract, serve and retain customers.

Segments

The company manages the business through two divisions: Express and Mail and via the business entity Other Networks.

Express division

The Express division provides door-to-door express delivery services for customers sending documents, parcels and freight worldwide. It offers regional, national and worldwide express delivery services, mainly for business-to-business customers. Its

customers are small and medium enterprises, major accounts and global customers.

Mail division

The Mail division primarily provides services for collecting, sorting, transporting and distributing domestic and international mail. It provides mail, mail related, and parcel services to its customers. Its mature business is organized in the business line Mail Netherlands. This business line is responsible for mail services in the Netherlands, including the provision of the universal service. Related are the data and electronic communication activities, operating under the brand name Cendris, and the cross-border mail services provided through the joint venture Spring Global Mail.

The company's emerging mail activities include TNT's mail services outside the Netherlands. TNT Post, through its business line European Mail Networks, is active in the Netherlands and seven other countries, where it is a main challenger of the incumbent postal operator. These activities include both addressed and unaddressed mail.

The Mail division provides standard parcel services in the Netherlands and Belgium through TNT Post Pakketservice for both domestic and cross-border parcel distribution.

Other Networks

The Other Networks performs special services that require deliveries during the night to individually agreed delivery points.

Geographical Segments

The company's geographical segments include Europe, including the Netherlands, the United Kingdom, Italy, Germany, France, and Belgium; Americas, including the United States of America and Canada, Brazil, and South & Middle America; Africa & the Middle East; Australia & Pacific; and Asia, including China and Taiwan, and India.

Acquisitions

In 2008, the company entered into two Mail acquisitions being Idomail GmbH&Co KG (51%) and Sierra Nova BV (35%).

In February 2009, the company acquired 100% of the shares of LIT Cargo, an express

delivery company in Chile.

Competition

The company's competitors include UPS, FedEx, and DHL.

History

The company was founded in 1946. It was formerly known as TNT Post Group N.V. and changed its name to TPG N.V. in 2001; and to TNT N.V. in 2005.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
