The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Tompkins Financial Corporation. business.

About Tompkins Financial Corporation.

Tompkins Financial Corporation, through its subsidiaries, offers an array of products and services, including commercial and consumer banking, leasing, trust and investment management, financial planning and wealth management, insurance, and brokerage services in New York.

The company's subsidiaries include three wholly-owned banking subsidiaries, Tompkins Trust Company (the Trust Company), The Bank of Castile, and The Mahopac National Bank (Mahopac National Bank); a wholly-owned insurance subsidiary, Tompkins Insurance Agencies, Inc. (Tompkins Insurance); a wholly-owned financial planning, wealth management, and broker-dealer subsidiary, AM&M Financial Services, Inc. (AM&M); and Tompkins Capital Trust I and Sleepy Hollow Capital Trust I, each of whose common stock is 100% owned by the company.

Segments

The company operates in two segments, Banking and Financial Services.

The Banking Services consist primarily of attracting deposits from the areas served by the company's banking subsidiaries' 45 banking offices and using those deposits to

originate various commercial loans, consumer loans, real estate loans, and leases in those same areas.

The Financial Services activities consist of the company's trust, financial planning and wealth management, broker-dealer services, and insurance and risk management operations.

Commercial Services

The company's subsidiary banks provide financial services to corporations and other business clients. Lending activities include loans for various business purposes, including real estate financing, construction, equipment financing, accounts receivable financing, and commercial leasing. Other commercial services include deposit and cash management services, letters of credit, sweep accounts, credit cards, purchasing cards, Internet-based account services, and remote deposit services.

Retail Services

The company's subsidiary banks provide various retail banking services, including checking accounts, savings accounts, time deposits, IRA products, brokerage services, residential mortgage loans, personal loans, home equity loans, credit cards, debit cards, and safe deposit services. Retail services are accessible through various delivery systems, including branch facilities, ATMs, voice response, Internet banking, and remote deposit services, a service that brings deposit capability to an individual's desk any time of the day or night.

Securities Portfolio

The company maintains a portfolio of securities, such as U.S. government sponsored entities securities, obligations of states and political subdivisions thereof, equity securities, and interest-bearing deposits.

Trust and Investment Management Services

The company provides trust and investment services through Tompkins Investment Services (TIS), a division of Tompkins Trust Company, and investment services through AM&M. Tompkins Investment Services, with office locations at all three of the company's subsidiary banks, provides a range of money management services, including investment management accounts, custody accounts, trusts, retirement plans

and rollovers, estate settlement, and financial planning. AM&M provides fee-based financial planning and wealth management services for small business owners, professionals and corporate executives, and other individuals with financial needs.

Broker-Dealer Services

AM&M operates a broker-dealer subsidiary, Ensemble Financial Services, Inc., which is an outsourcing company for financial planners and investment advisors.

Insurance Services

The company provides property and casualty insurance services and employee benefits consulting through Tompkins Insurance. Tompkins Insurance is an independent insurance agency, representing major insurance carriers. Tompkins Insurance has automated systems for record keeping, claim processing and coverage confirmation, and can provide insurance pricing comparisons from a range of insurance companies. Tompkins Insurance provides employee benefits consulting to employers in western and central New York, assisting them with their medical, group life insurance and group disability insurance. In addition to its seven offices, Tompkins Insurance shares various offices with The Bank of Castile and The Trust Company. AM&M operates a subsidiary that creates customized risk management plans using life, disability and long-term care insurance products.

History

Tompkins Financial Corporation was founded in 1836.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
