Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Tongli Pharmaceuticals (USA), Inc. business.

About Tongli Pharmaceuticals (USA), Inc.

Tongli Pharmaceuticals (USA), Inc., through its subsidiary, Harbin Tianmu Pharmaceuticals Co., Ltd., develops, produces, and sells various pharmaceuticals and healthcare products based on traditional Chinese medicine in the People's Republic of China.

Products

The company develops pharmaceutical and health care products that incorporate elements of Chinese Traditional Medicine with elements of western medicine.

Antihyperlipidemics: These tablets, based on principles of Chinese Traditional Medicine, are used to reduce cholesterol levels and soften blood vessels to improve circulation. Its antihyperlipidemics are offered as an alternative to the statins commonly used for this purpose in western medicine.

Yuxiang Anti-Bacterial Mouthwash: Comprised of a mixture of medicinal ingredients that

counter disease and odor in the oral cavity and throat, Yuxiang Mouthwash is designed to purge bad breath caused by gum disease, abnormal sleep, nervousness, food, alcohol and smoking. The company packages Yuxiang Mouthwash in bottles that are small enough to be carried conveniently, and it targets customers who are traveling or away from home. Its primary points of distribution for Yuxiang Mouthwash have been restaurants and transport carriers.

Calcium Gluconate Oral Liquid: This is a calcium supplement used for the prevention and treatment of diseases caused by calcium deficiency, such as osteoporosis, bone hypoplasia, and Rickets. The liquid is particularly recommended for women during menopause or lactation.

Yan Li Xiao Capsules: This product is designed to detoxify the body, clear heat, relieve inflammatory symptoms and can be used to treat acute tonsillitis, bacillary dysentery, acute and chronic bronchitis, acute gastroenteritis, acute mastitis and other infectious diseases.

Fuke Zhidai Tablets: This product is used to treat abnormal leucorrhea, which caused by chronic cervicitis, endometritis and endocervicitis.

History

The company was founded in 1999. It was formerly known as American Tony Pharmaceutical, Inc. and changed its name to Tongli Pharmaceuticals (USA), Inc. in 2008.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
