The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.
- In the part that describes Trinity Industries Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.
- Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Trinity Industries Inc. business.

About Trinity Industries Inc.

Trinity Industries, Inc. provides products and services to the industrial, energy, transportation, and construction sectors. The company manufactures and sells railcars and railcar parts in addition to leasing railcars to its customers through a captive leasing business, Trinity Industries Leasing Company (TILC). It also manufactures and sells inland barges, structural wind towers, concrete and aggregates, asphalt, highway products, structural steel components used in infrastructure projects, tank containers, and various steel parts.

Operations

The company serves its customers through five business groups, including Rail Group, Railcar Leasing and Management Services Group, Construction Products Group, Inland Barge Group, and Energy Equipment Group.

Rail Group

Through wholly owned subsidiaries, the company's Rail Group manufactures freight railcar in North America (Trinity Rail Group). It provides a complement of railcars used for transporting various liquids, gases, and dry cargo. Trinity Rail Group provides a range of railcar solutions for its customers.

The company manufactures a line of railcars, including: Auto Carrier Cars that transport automobiles and various other vehicles; Box Cars, which transport products, such as food products, auto parts, wood products, and paper; Gondola Cars, which are primarily used for coal service and transportation of various other heavy bulk commodities, such as scrap metals and steel products; Hopper Cars, which carry cargo, such as grain, distillers dried grain, dry fertilizer, plastic pellets, and cement; Intermodal Cars, which transport intermodal containers and trailers, which are generally interchangeable among railcar, truck, and ship; Specialty Cars, which are designed to address the special needs of a particular industry or customer, such as waste-hauling gondolas, side dump cars, and pressure differential cars used to haul fine grain food products such as starch and flour; Tank Cars, which transport products, such as liquefied petroleum products, alcohol and renewable fuels, liquid fertilizer, and food and grain products, such as vegetable oil and corn syrup.

The company produces a range of railcars and also provides various railcar components for the North American market from its plants in the United States and Mexico. It manufactures and sells railcar parts used in manufacturing and repairing railcars, such as auto carrier doors and accessories, discharge gates, yokes, couplers, axles, and hitches. The company also has two repair and coating facilities located in Texas. Its customers include railroads, leasing companies, and shippers of products, such as utilities, petrochemical companies, grain shippers, and major construction and industrial companies.

Railcar Leasing and Management Services Group

Through wholly owned subsidiaries, primarily Trinity Industries Leasing Company (TILC), the company leases tank cars and freight cars. The company's Railcar Leasing and Management Services Group (Leasing Group) is a provider of leasing and management services. Trinity Rail Group and TILC coordinate sales and marketing activities under the name TrinityRail, thereby providing a single point of contact for railroads and shippers seeking solutions to their rail equipment and service needs.

The company's railcars are leased to shippers and railroads. These companies span the petroleum, chemical, agricultural, and energy industries. All of its owned railcars are purchased from and manufactured by its Rail Group. As of December 31, 2009, the company's lease fleet included approximately 50,090 owned or leased railcars. Of this total, approximately 38,810 railcars were owned by TILC and approximately 11,280 railcars were financed in sale leaseback transactions.

Construction Products Group

Through wholly owned subsidiaries, the company's Construction Products Group produces concrete, aggregates, and asphalt and manufactures highway products, as well as other steel products for infrastructure related projects.

The company engages in the supply of ready mix concrete in certain areas of Texas. It also has plant locations in Arkansas and Louisiana. The com
