## Abstracts

TriNorth Capital Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between TriNorth Capital Inc. and its competitors. This provides our Clients with a clear understanding of TriNorth Capital Inc. position in the Industry.

The report contains detailed information about TriNorth Capital Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for TriNorth Capital Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The TriNorth Capital Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes TriNorth Capital Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of TriNorth Capital Inc. business.

### **About TriNorth Capital Inc.**

TriNorth Capital, Inc. operates as an investment company. The company has various venture investments, a portfolio of marketable securities, and substantial tax losses to shelter future income and investment gains.

#### Asian MobileLink

Asian MobileLink (AML) is a division of TriNorth which distributes content such as games, ringtones, wallpaper, animations and video clips for mobile phones in Asia and North America. In 2006 AML contracted with Teragrid Solutions Inc. for the development of a software platform. AML has approximately 1,500 games available for distribution and has completed distribution agreements with mobile content distributors in Asia, China, India and Taiwan.

#### Venture Investments

The company's main group of venture investees Vitalink Worldwide Limited (Vitalink), which operates through its principal subsidiary Business.ca Incorporated (Business.ca), Teragrid Systems Inc. (Teragrid), VFM Interactive Inc. (VFM) and Biorem Inc. (Biorem).

## Business.ca

The company acquired a 30% equity interest in Vitalink, a British Virgin Islands company, which operates through its principal subsidiary, Business.ca Incorporated (Business.ca). Business.ca is a Toronto, Ontario based company which, together with its subsidiaries, provides specialized Web-based information technology systems for small to medium sized businesses across a spectrum of industries.

## VFM

VFM provides off-platform technology driven rich media solutions, connectivity and interactivity to both client hotels and the online travel distribution industry in general. VFM's end-to-end media management and distribution solution is a content agnostic hub that aggregates hotel and travel-related digital rich media content (rich content), such as videos, virtual tour images and still pictures, and automates its distribution to travel Web sites and any other online points of contact where rich content can be viewed by, and influence the purchasing decisions of, consumers researching and booking hotel accommodations.

As part of its services, VFM offers hotels and travel websites a complete digital rich content management and online distribution solution. VFM hosts, distributes (posts, streams and/or serves) and tracks the performance of its hotel clients' rich content on their own websites (including their hotel brand websites) and VFM's network of partner travel Web sites.

## Biorem Inc.

The company owns approximately 1.9%, of Biorem Inc. (Biorem), a Guelph, Ontario based supplier of biofilters for air pollution control in municipal and industrial applications.

## Portfolio Investments

The company's portfolio investments consist of a diversified selection of Canadian and U.S. income and dividend producing instruments, securities and equities.

## History

TriNorth Capital, Inc. was founded in 1965.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
