The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Twin Faces East Entertainment Corp. business.

About Twin Faces East Entertainment Corp.

Twin Faces East Entertainment Corporation, a development stage company, engages in the production and development of entertainment properties in the United States. The company's products include documentary film footage of Dr. Albert Einstein and feature film and television scripts.

Products

Einstein Properties: The Einstein Properties are the result of Dr. Smolanoff's acquisition of the films from Peter A. Buckey. Peter A. Buckey provides a rare insight into Albert Einstein's private life, opinions, and foibles that are folded into rare videos. The company owns original 16mm film footage of rare moments, such as the family vacation when Einstein wrote that fateful letter to Franklin D. Roosevelt that led to the Manhattan Project.

Pages From A Rabbit Journal: Pages From A Rabbit Journal, a children's book and future film script was created by Dr. Smolanoff. The story is of The Rabbit Family's adventures in their travels through the forest with many character developments along

the path of their journey. The story has been turned into a series of twenty-two minute animated video episodes, each a cliff-hanger and with a positive children's message.

The Town That Arrested Santa Claus: The Town That Arrested Santa Claus: An illustrated children's story with a merry cast of Christmas characters in the newly discovered village of Forgottenville. This is a classic tale with the true meaning and tradition of Christmas. Santa and Forgottenville's citizens are almost tricked by Dr. S. Neak, until a young child comes to Santa's rescue.

Hidden Treasures of the World: This is a series of one hour, made for television specials, showcasing specific geographic locations in the world where billion dollar plus treasure discoveries were made. The documentary *St. Lavra* from Kiev Russia is ready for distribution.

A Real Man: 'A Real Man' is a story of a band of African American brothers, growing up in the ghetto with hard choices to be made. The lead character needs to decide the future of his unborn child with his girlfriend- giving up the ways of the street or to let them both (mother & child) go and allow them to grow up as he did- fatherless. This script was written by Johnnie King, Director of Film Development of the Company.

Sunday In Manhattan: 'Sunday in Manhattan' is a new and original live action, feature length, sound and talking motion Product in color, recorded originally in the English language, telling a story, with all necessary dialogue, music, lyrics and sound effects.

Street Justice: 'Street Justice' is an action drama set on the streets of Bronx, New York. It is the story of growing up in an infested neighborhood rancid with drugs and all manner of ghetto life. More important it is the story of a young African American man who found a way to survive on the street without becoming a creature of the street. The film is engaged in discussions with distributors and funding sources.

History

Twin Faces East Entertainment Corporation was founded in 1997.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
