## Abstracts

Ultitek Ltd. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Ultitek Ltd. and its competitors. This provides our Clients with a clear understanding of Ultitek Ltd. position in the Industry.

The report contains detailed information about Ultitek Ltd. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Ultitek Ltd.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Ultitek Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your

company's decision-making processes.

In the part that describes Ultitek Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Ultitek Ltd. business.

## **About Ultitek Ltd.**

Ultitek, Ltd., through its subsidiary, Transport Automation Information Systems (TAIS), engages in the ownership, operation, sale, and maintenance of an airline operating, reservation and distribution software system in Eastern Europe.

### **Products and Services**

The company operates a completely independent reservation, global distribution, and airline operation system. Its product provides the airlines with a system that allows maintaining their own proprietary information. The company's software, known as the ULTITEK System, consists of the following systems:

**Computerized Reservation System:** The Computer Reservations System (CRS) is the module primarily designed to maintain seat inventory for airlines and to assist travel agencies in booking seats and other travel. The CRS provides a range of travel agency solutions with a graphical interface to run a travel agency productively.

**Global Distribution System:** The Global Distribution System (GDS) is designed to disseminate flight schedules, seating availability and pricing information electronically to customers. GDS provides solutions that meet the booking needs of travel agencies or in-house corporate travel departments.

**Airline Operations System:** The Airline Operations System (AOS) allows a subscriber airline to manage every aspect of its operations.

**Departure Control System:** The Departure Control System (DCS) controls passenger registration and identification, boarding passes and seating assignments.

The ULTITEK System also includes the following: a complete accounting system, including revenue management, yield management, accounts payable, accounts receivable, general ledger and cost accounting; inventory control for the number of seats available on a flight; inventory control for spare parts and other miscellaneous components; maintenance; fixed assets; purchasing; airport departure control (including control of boarding passes); inter-airline clearing facility with electronic funds transfer; aircraft dispatching; crew management/scheduling; airplane equipment inventory; miscellaneous supplies and logistics; inter-city long haul bus station/scheduling/reservation system; reservations via Internet; theater tickets sales; multilingual features; access to hotel reservations; access to car rental reservations; access to other tour operators; frequent flyer programs; and charter airline management modules.

The ULTITEK System is currently accredited by International Air Transport Association (IATA) defined as a Computerized Reservation System, and has an IATA-designated code. The ULTITEK System communicates with most distribution systems worldwide. The ULTITEK System would be available in English and Russian. Language modules would include French, German, Spanish, and other languages.

## Competition

The company's competitors include Sabre, Galileo, Amadeus, Worldspan, Abacus International Holdings, and Gabriel Passenger Management.

## History

Ultitek, Ltd. was founded in 1989.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to

the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
