## Abstracts

Vaaldiam Mining Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Vaaldiam Mining Inc. and its competitors. This provides our Clients with a clear understanding of Vaaldiam Mining Inc. position in the Industry.

The report contains detailed information about Vaaldiam Mining Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Vaaldiam Mining Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Vaaldiam Mining Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Vaaldiam Mining Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Vaaldiam Mining Inc. business.

## **About Vaaldiam Mining Inc.**

Vaaldiam Mining Inc. operates as a mineral exploration and development company.

### Properties

#### Duas Barras Mine

The Duas Barras Mine is situated 150 kilometers north of the town of Diamantina in the State of Minas Gerais, Brazil. The mineral rights cover an area of 170.89 hectares.

#### Chapada Mine

The Chapada Mine is located in the State of Mato Grosso, Brazil approximately 80 kilometres northeast of the city of Cuiaba. The Chapada tenements cover an area of around 284 square kilometers.

#### Kenyan Properties

Vaaldiam Mining's remaining three Kenyan properties are mineral sands properties situated along the coastal lowlands of southeastern Kenya.

**The Kilifi Prospect:** The Kilifi prospect is subject to special license, which covers a licence area of approximately 107 square kilo meters located approximately 55 kilo metes northeast of Mombasa near the coast of Kenya. The Kilifi prospect consists of a large dune containing quantities of the heavy minerals ilmenite, rutile and zircon.

**The Kwale Project:** The Kwale Project covers an area of 56 square kilo meters and is located 40 kilo metes south of Mombasa. The Kwale Project consists of three large aeolian dunes containing quantities of the heavy minerals ilmenite, rutile and zircon.

**The Mambui Prospect:** The Mambui prospect is subject to special license, which covers a licence area of approximately 187 square kilo meters located approximately 110 kilo metes northeast of Mombasa near the coast of Kenya. The Mambui prospect consists of an aeolian dune containing ilmenite, rutile and zircon.

#### The Mambui Prospect

The Mambui prospect is subject to special license, which covers a license area of approximately 187 square kilo meters located approximately 110 km northeast of Mombasa near the coast of Kenya. The Mambui prospect consists of an aeolian dune containing ilmenite, rutile and zircon.

#### The Vipingo Prospect

The Vipingo prospect is subject to special license, which covers a license area of approximately 156 square kilo meters located approximately 15 kilo meters northeast of Mombasa near the coast of Kenya. The Vipingo prospect contains rutile and zircon, as well as kyanite.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
