It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.
- The Veidekke ASA financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.
- In the part that describes Veidekke ASA competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.
- Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Veidekke ASA business.

### About Veidekke ASA

Veidekke ASA operates as a building contractor and a property developer in Norway, Sweden, and Denmark. The company operates in three segments: Construction, Property Development, and Industry. The Construction segment engages in the construction of residential and non-residential buildings, schools, and other public buildings; renovation of buildings; and construction of heavy projects, such as roads, railways, and industrial development projects. The Property Development segment involves in the development of non-residential buildings and special-purpose buildings for the public sector; and

maintenance and management of non-residential buildings. The Industry segment engages in the production of asphalt and asphaltting works, gravel, and crushed stone; operation and maintenance of public roads; collection, transport, and segregation of mixed waste; and development and manufacture of end products, such as biofuels, recycled concrete, and textile waste. The company was founded in 1936 and is headquartered in Oslo, Norway.

The above Company Fundamental Report is a half-ready report and contents are subject to change. It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.
