## Abstracts

Virginia Mines Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Virginia Mines Inc. and its competitors. This provides our Clients with a clear understanding of Virginia Mines Inc. position in the Industry.

The report contains detailed information about Virginia Mines Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Virginia Mines Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Virginia Mines Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Virginia Mines Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Virginia Mines Inc. business.

### **About Virginia Mines Inc.**

Virginia Mines Inc. engages in the acquisition, exploration, development, and exploitation of mining exploration properties in Canada.

#### Properties

##### Poste Lemoyne Extension Property

The Poste Lemoyne Extension project is located in the James Bay area, province of Quebec, at approximately 475 kilometers north-east of the town of Matagami and 10 kilometers west of the Hydro-Quebec Poste Lemoyne substation, on the Trans-Taiga road. As at February 28, 2010, the project consisted of 446 claims covering 22,821.60 hectares. The claims are held 100% by the company.

##### Anatacau-Wabamisk Property

The Anatacau-Wabamisk project is located 30 kilometers southwest of the Opinaca reservoir, approximately 290 kilometers north of Matagami, province of Quebec. The property is situated approximately 30 kilometers east of the James Bay Road. As of February 28, 2010, the property consisted of 975 designated claims totaling 51,355.67

hectares, split on two adjoining portions: the Anatacau part, with 207 claims constituting the southeast portion of the property, and the Wabamisk part, with 768 claims constituting the main part of the property. The company owns a 100% participating interest in the Wabamisk portion while IAMGOLD Corporation (IAMGOLD) owns a 100% participating interest in the Anatacau portion.

#### Lac Pau Property

The Lac Pau property is located in the vast James Bay region, in the northern part of the Caniapiscau reservoir, 70 kilometers north-east of the Trans-Taiga road. The property consists of 715 claims covering 34,861.96 hectares. The company is the sole owner of the claims.

#### La Grande Sud Property

The La Grande Sud property is located 70 kilometers southeast of the town of Radisson, within the James Bay territory, in the Province of Quebec. The property consists of 188 claims covering a surface area of 9,635.34 hectares, to the south of the LG-2 reservoir. The company holds 100% of the mining rights while Orezone Resources (Orezone) holds a 1% net smelter royalty (NSR) royalty.

#### Auclair Property

The Auclair project is located 75 kilometers north-east of Nemiscau, in the James Bay territory, province of Quebec. It consists of 318 claims totaling 16,854.04 hectares. The company owns 100% of the mining rights but in virtue of an agreement signed in May 2009, Odyssey Resources Limited (Odyssey) has the option to acquire a 50% participating interest in the property

#### FCI Property

The FCI project is located 42 kilometers southwest of Hydro-Quebec's LG-4 airport, in the James Bay territory, province of Quebec. The property consists of 412 claims covering a surface area of 21,105.42 hectares, 36 kilometers southwest of Cargair float-plane base and of the Trans-Taiga road. The company owns 100% of the mining rights but in virtue of an agreement signed in May 2009, Odyssey has the option to acquire a 50% participating interest in the FCI property

#### Coulon Property

The Coulon property is located 15 kilometers north-northwest of the Fontanges Airport operated by Hydro-Quebec, in the Caniapiscau area, approximately 700 kilometers to the east-northeast of Matagami in the James Bay region of the province of Quebec. As of February 28, 2010, the Coulon property consisted of 862 claims covering a surface area of 42,843.65 hectares. The company is the sole owner of the project.

## Significant Events

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
