term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Vista Gold Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Vista Gold Corp. business.

About Vista Gold Corp.

Vista Gold Corp. engages in the evaluation, acquisition, exploration, and advancement of gold exploration and potential development projects.

The company's holdings include the Paredones Amarillos gold project in Mexico; the Mt. Todd gold project in Australia; the Guadalupe de los Reyes gold project in Mexico; the Yellow Pine gold project in Idaho; the Awak Mas gold project in Indonesia; the Long Valley gold project in California; and mining claims in Utah. It also owns approximately 25% of the shares of Zamora Gold Corp., a company exploring for gold in Ecuador.

Properties

Paredones Amarillos: Paredones Amarillos is located 55 kilometers southeast of the city of La Paz, in the Mexican state of Baja California Sur. The project area covers approximately 3,710 hectares and comprises 15 mining concessions. The company owns 100% of the project. In late 2009 and early 2010, the company completed a 14-hole core drill program in the known resource area for resource and reserve confirmation and to evaluate any apparent check assay bias.

Mt. Todd: The company holds a 100% interest in the Mt. Todd gold mine (also known as

the Yimuyn Manjerr gold mine) in the Northern Territory, Australia. Total land holdings controlled by Vista Gold Australia Pty Ltd. are approximately 160,878 hectares. The project is located 56 kilometers by road northwest of Katherine, Northern Territory, Australia, and approximately 250 kilometers south of Darwin.

Yellow Pine: The Yellow Pine gold project is located in the Salmon River Mountains of central Idaho in an area of historical gold, antimony and tungsten mining known as the Stibnite or Yellow Pine Mining District. The project consists of 17 patented mining claims covering approximately 300 acres and 8 unpatented lode mining claims covering approximately 165 acres.

Long Valley: The Long Valley gold project is located in the Inyo National Forest, approximately 7 miles east of the town of Mammoth Lakes, in Mono County, California. The property consists of 95 contiguous, unpatented mining claims that cover an area of approximately 1,963 acres.

Guadalupe de los Reyes: Guadalupe de los Reyes is located in the State of Sinaloa, in western Mexico, at approximately half of the distance between the cities of Mazatlan and Culiacan. The property is held through 16 Federal mining concessions (plus 1 in the application process) totaling approximately 4,437 hectares.

Awak Mas: The company owns interest in the Awak Mas gold deposit in Sulawesi, Indonesia. The Awak Mas property is situated on the southern side of the Central Sulawesi Metamorphic Belt within a 50-kilometer-long, north-northeast trending fault-bounded block of basement metamorphic rocks and younger sediments. In 2009, the company's wholly owned subsidiary, Vista Gold (Barbados) Corp. had signed a joint venture agreement with Pan Asia Resources Corporation (Pan Asia) with respect to the development of the Awak Mas gold project.

History

Vista Gold Corp. was founded in 1983.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
