Wabash National Corporation engages in designing, manufacturing, and marketing standard and customized truck trailers and related transportation equipment.

The company markets its transportation equipment under the Wabash, DuraPlate, DuraPlateHD, FreightPro, ArcticLite, RoadRailer, Transcraft, Eagle, Eagle II, D-Eagle and Benson trademarks directly to customers, through independent dealers and through its company-owned retail branch network.

Products

The company's transportation equipment and DuraPlate products primarily include the following:

DuraPlate Trailers: DuraPlate trailers utilize a proprietary technology that consists of a composite plate wall. The company's DuraPlate trailers include its DuraPlateHD, a heavy duty version of its regular DuraPlate trailers.

Smooth Aluminum Trailers: Smooth aluminum trailers, commonly known as 'sheet and post' trailers, are the commodity trailer product purchased by the trucking industry.

Platform Trailers: Platform trailers are sold under Transcraft, Eagle and Benson trademarks. Platform trailers consist of a trailer chassis with a flat or 'drop' loading deck without permanent sides or a roof. These trailers are primarily utilized to haul steel coils, construction materials and large equipment.

Refrigerated Trailers: Refrigerated trailers have insulating foam in the walls, roof and floor, which improves both the insulation capabilities and durability of the trailers.

RoadRailer Equipment: The RoadRailer intermodal system is a patented bimodal technology consisting of a truck trailer and a detachable rail 'bogie' that permits a trailer to run both over the highway and directly on railroad lines.

Dump Equipment: The company offers aluminum and steel dump equipment under the name of Benson. This dump equipment is primarily used in the coal industry.

DuraPlate Products: The DuraPlate Products Group was initiated in 2008 to expand the use of DuraPlate composite panels, including the building and servicing all of PODS portable storage container requirements with its new DuraPlate container.

The company's retail and distribution segment offers products in three general categories: new trailers, used trailers and parts and service. The following is a description of each product category:

The company sells new trailers produced by the manufacturing segment. Additionally, the company sells specialty trailers produced by third parties that are purchased in smaller quantities for local or regional transportation needs.

The company provides replacement parts and accessories and maintenance service for trailers and other related equipment.

The company sells used trailers including units taken in trade from its customers upon the sale of new trailers. The ability to remarket used trailers promotes new trailer sales by permitting trade-in allowances and offering customers an outlet for the disposal of used equipment.

Customers

The company's customer base includes truckload common carriers, leasing companies, private fleet carriers, less-than-truckload (LTL) common carriers, and package carriers.

Truckload Carriers: The company's customers include Averitt Express, Inc.; Crete Carrier Corporation; Heartland Express, Inc.; Knight Transportation, Inc.; Schneider National, Inc.; Swift Transportation Corporation; the U.S. Xpress Enterprises, Inc.; and Werner Enterprises, Inc.
