The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Walker & Dunlop, LLC business.

About Walker & Dunlop, LLC

Walker & Dunlop, LLC provides commercial real estate financial services in the United States, with a primary focus on multifamily lending. The company originates, sells, and services a range of multifamily and other commercial real estate financing products. Its clients are owners and developers of commercial real estate across the country.

The company originates and sells loans through the programs of Fannie Mae and the Federal Home Loan Mortgage Corporation (Freddie Mac, and together with Fannie Mae, the government-sponsored enterprises, or the GSEs), the Government National Mortgage Association (Ginnie Mae), and the Federal Housing Administration, a division of the U.S. Department of Housing and Urban Development (together with Ginnie Mae, HUD), with which the company has relationships.

The company is approved as a Fannie Mae Delegated Underwriting and Servicing (DUS) lender nationally, a Freddie Mac Program Plus lender in seven states, the District of Columbia and the metropolitan New York area, a HUD Multifamily Accelerated Processing (MAP) lender nationally, and a Ginnie Mae issuer. It also originates and services loans for various life insurance companies, investment banks, commercial banks, pension funds, and other institutional investors.

Product Offerings

The company originates, sells, and services a range of multifamily and other commercial real estate financing products. It focuses primarily on multifamily properties and offers a range of commercial real estate finance products to its customers, including first mortgage loans, second trust loans, supplemental financings, construction loans, mezzanine loans, and equity investments.

The company structures its internal working groups around the various services it provides: Multifamily Finance, FHA Finance, Healthcare Finance, Capital Markets, and Investment Services.

Multifamily Finance: The company is an approved lender who participate in Fannie Mae's DUS program for multifamily, manufactured housing communities, student housing, and certain healthcare properties.

FHA Finance: As an approved HUD MAP lender and Ginnie Mae issuer, the company provides construction and permanent loans to developers and owners of multifamily housing, senior housing, and healthcare facilities. The company submits its completed loan underwriting package to HUD and obtains HUD's approval to originate the loan.

Healthcare Finance: The company also operates in the healthcare real estate lending space, which includes skilled nursing facilities and hospitals.

Capital Markets: The company serves as an intermediary in the placement of commercial real estate debt between institutional sources of capital, such as life insurance companies, investment banks, commercial banks, pension funds and other institutional investors, and owners of various types of commercial real estate. The company advises on capital structure, develops the financing package, facilitates negotiations between its client and institutional sources of capital, coordinates due diligence, and assists in closing the transaction.

Investment Services: The company provides investment consulting and related services for two commercial real estate funds, W&D Balanced Real Estate Fund I LP and Walker & Dunlop Apartment Fund I, LLC. W&D Balanced Real Estate Fund I LP is a commercial real estate fund that has invested in commercial real estate securities and loans, such as first mortgages, B-notes, mezzanine debt, and equity securities. Walker & Dunlop Apartment Fund I, LLC is a commercial real estate fund that has invested in multifamily real estate securities and mezzanine financings.

History

Walker & Dunlop, LLC was founded in 1937.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
