The Warner Chilcott plc financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Warner Chilcott plc competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Warner Chilcott plc business.

About Warner Chilcott plc

Warner Chilcott Public Limited Company operates as a specialty pharmaceutical company. The company focuses on the gastroenterology, women's healthcare, dermatology, and urology segments of the North American and western European pharmaceuticals markets.

The company has acquired the global branded pharmaceuticals business (PGP) of The Procter & Gamble Company (P&G). It has acquired PGP's portfolio of branded pharmaceutical products (including its two primary products ASACOL and ACTONEL), PGP's prescription drug pipeline and its manufacturing facilities in Puerto Rico and Germany. ASACOL is the treatment for ulcerative colitis in the U.S. market for orally administered 5-aminosalicylic acid (5-ASA). ACTONEL is the branded product in the U.S. non-injectable osteoporosis market for the prevention and treatment of osteoporosis in women. ACTONEL is marketed under its global collaboration agreement with Sanofi-Aventis US LLC (Sanofi).

Women's Healthcare

The company is developing WC3016; WC3026; WC3048; WC3049; and WC3051. The company submitted an NDA for a low-dose oral contraceptive, WC3016. PGP has

completed and submitted an application with respect to WC3048 to the European Medicines Agency for a treatment of hypoactive sexual desire disorder in naturally menopausal women (INTRINSA HSDD). PGP is in Phase II in the United States with respect to the development of WC3049 for the treatment of congestive heart failure (INTRINSA CHF). The company has completed a Phase III study for a once-a-week osteoporosis treatment for postmenopausal women and submitted an NDA for WC3051 in the United States and Canada.

Other Osteoporosis Products: In addition, the company has other next generation ACTONEL products in development for the treatment of postmenopausal women and small molecules in preclinical development.

The company offers Osteoporosis ACTONEL (Risedronate sodium) for the prevention and treatment of postmenopausal osteoporosis; Oral Contraceptives LOESTRIN 24 FE (Norethindrone acetate and ethinyl estradiol) and FEMCON FE (Norethindrone and ethinyl estradiol) for the prevention of pregnancy; and Hormone Therapy ESTRACE Cream (17-beta estradiol), a vaginal cream for treatment of vaginal and vulvar atrophy.

Gastroenterology

Ulcerative Colitis Products: The company is developing 5-ASA-like compounds for the treatment of ulcerative colitis. It offers Ulcerative Colitis ASACOL 400 mg (Mesalamine) for the Treatment of mild to moderate ulcerative colitis and maintenance of remission; and ASACOL 800 mg (Mesalamine) for the treatment of moderately active ulcerative colitis.

Dermatology

WC2055: The company commenced clinical development of an oral antibiotic for the treatment of acne and completed a Phase II study.

WC3035: The company has entered into an agreement with Paratek Pharmaceuticals, Inc. (Paratek) under which the company acquired certain rights to tetracyclines under development for the treatment of acne and rosacea. A primary compound is in preclinical development.

The company offers Acne DORYX (Doxycycline hyclate), an oral adjunctive therapy for severe acne in 75, 100, and 150 mg strength delayed-release tablets.

Urology

WC3036: In February 2009, the company acquired the U.S. rights to NexMed, Inc's topically applied alprostadil cream for the treatment of erectile dysfunction (ED).

WC3043: The company has entered into an agreement with Dong-A PharmTech Co. Ltd (Dong-A) to develop and market their orally-administered udenafil product, a PDE5 inhibitor for the treatment of ED in the United States. Dong-A has completed Phase II studies of the product in the United States. Phase III development of the product began in 2009.

Other

NEMONAXACIN: Phase II studies have been completed of non-fluorinated quinolone for the treatment of pathogens, such as methicillin-resistant staphylococcus aureus.

AZIMILIDE: The company is in Phase III for a treatment of ventricular arrhythmias. In January 2010, the company entered into an agreement with Blue Ash Therapeutics, LLC (BAT), pursuant to which BAT acquired a worldwide license to the rights to this product.

Customers

The company's major customers include wholesale pharmaceutical distributors, such as McKesson Corporation (McKesson), AmerisourceBergen Corporation (AmerisourceBergen), and Cardinal Health, Inc. (Cardinal); and major retail drug and grocery store chains.

Significant Events

In April 2010, Warner Chilcott plc and Sanofi-Aventis announced an amendment to the ActonelR global collaboration agreement with respect to the parties' arrangement in the United States and Puerto Rico. Under the terms of the amendment, Warner Chilcott would take full operational control over the promotion, marketing and R&D decisions for Actonel in the United States and Puerto Rico.

Competition

The company's principal branded competitors include Gastroenterology—Shire (Lialda and Pentasa) and Salix Pharmaceuticals, Inc. (Colazal); Osteoporosis—Merck

(Fosamax), Roche (Boniva), and Novartis (Reclast); Hormonal Contraceptives—Bayer AG (Yasmin and Yaz), Johnson & Johnson (Ortho Tri-Cyclen Lo, Ortho Evra), Schering-Plough Corporation (Nuvaring), and Teva (Seasonique); Hormone Therapy—Pfizer (Premarin, Premarin Vaginal Cream, and Prempro), Bayer AG (Climara), and Novo Nordisk A/S (Vagifem and Activella); Acne—Medicis Pharmaceutical Corporation (Solodyn), Nycomed S.C.A. SICAR (Adoxa), and Galderma (Oracea); and Urology—Pfizer (Detrol), Ortho-McNeil Pharmaceutical, Inc. (Ditroban XL), Esprit Pharmaceuticals, Inc., and Indevus Pharmaceuticals, Inc. (Sanctira).

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
