Such information creates your awareness about principal trends of Wells Fargo & Company business.

About Wells Fargo & Company

Wells Fargo & Company, a diversified financial services company, provides retail, commercial and corporate banking services through banking stores located in 39 states and the District of Columbia.

The company provides wholesale banking, mortgage banking, consumer finance, equipment leasing, agricultural finance, commercial finance, securities brokerage and investment banking, insurance agency and brokerage services, computer and data processing services, trust services, investment advisory services, mortgage-backed securities servicing and venture capital investment.

Segments

The company's segments include Community Banking; Wholesale Banking; and Wealth, Brokerage and Retirement.

Community Banking

This segment offers a line of diversified financial products and services for consumers and small businesses including investment, insurance and trust services in 39 states

and D.C., and mortgage and home equity loans in all 50 states and D.C. Community Banking also includes Wells Fargo Financial consumer finance and auto finance operations. Consumer finance operations make real estate loans to individuals in the United States and the Pacific Rim, and also make direct consumer loans to individuals and purchase sales finance contracts from retail merchants from offices throughout the United States, and in Canada and the Pacific Rim. Auto finance operations focuses on purchasing sales finance contracts directly from auto dealers in Puerto Rico and making loans secured by autos in the United States and Puerto Rico. Wells Fargo Financial also provides credit cards, lease and other commercial financing.

Wholesale Banking

This segment provides financial solutions to businesses across the United States to financial institutions globally. Products include middle market banking, corporate banking, CRE, treasury management, asset-based lending, insurance brokerage, foreign exchange, correspondent banking, trade services, specialized lending, equipment finance, corporate trust, investment banking, capital markets, and asset management. The company also offers investment banking, mergers and acquisitions, equity trading, equity structured products, fixed-income sales and trading, and equity and fixed-income research.

The company offers traditional commercial loans and lines of credit, letters of credit, asset-based lending, equipment leasing, mezzanine financing, high-yield debt, international trade facilities, trade financing, collection services, foreign exchange services, treasury management, investment management, institutional fixed-income sales, interest rate, commodity and equity risk management, online/electronic products, such as the Commercial Electronic Office (CEO) portal, insurance, corporate trust fiduciary and agency services, and investment banking services. Wholesale Banking also supports the CRE market with products and services, such as construction loans for commercial and residential development, land acquisition and development loans, secured and unsecured lines of credit, interim financing arrangements for completed structures, rehabilitation loans, affordable housing loans and letters of credit, permanent loans for securitization, CRE loan servicing and real estate and mortgage brokerage services.

Wealth, Brokerage and Retirement

This segment provides a range of financial advisory services to clients. Wealth Management provides clients with a range of wealth management solutions, including

financial planning, private banking, credit, investment management, trust and estate services, business succession planning and charitable services along with bank-based brokerage services through Wells Fargo Advisors and Wells Fargo Investments, LLC. Family Wealth provides family-office services to clients. Retail Brokerage's financial advisors serve customers' advisory, brokerage, and financial needs. Retirement provides retirement services for individual investors and is a national leader in 401(k) and pension record keeping.

Deposits

The company's deposits include noninterest-bearing deposits, interest-bearing checking, savings certificates, market rate and other savings, and certain foreign deposits.

Loan Portfolio

As of December 31, 2009, the company's loan portfolio included commercial and commercial real estate loans, including commercial, real estate mortgage, real estate construction, and lease financing; and consumer loans, including real estate 1-4 family first mortgage, real estate 1-4 family junior lien mortgage, credit card, and other revolving credit and installment.

Investment Portfolio

As of December 31, 2009, the company's investment portfolio included securities of U.S. treasury and federal agencies; securities of U.S. states and political subdivisions; mortgage-backed securities; and marketable equity securities.

Significant Events

On July 27, 2010, Wells Fargo & Company announced a new division, Wells Fargo Global Banking to support the financing needs of U.S. companies engaged in international business and work with overseas based multinationals operating in the U.S. The new division provides middle market and large U.S. and foreign owned companies with cross-border financing, working capital, risk and treasury management, and trade finance services. The company named Sanjiv Sanghvi to lead the Wells Fargo Global Banking division.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
