The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Wendy's/Arby's Group, Inc. business.

About Wendy's/Arby's Group, Inc.

Wendy's/Arby's Group, Inc., through its subsidiaries, operates as a franchisor of the Wendy's and Arby's restaurant systems in the United States and Canada.

Segments

The company operates in two business segments consisting of two restaurant brands: Wendy's restaurants and Arby's restaurants.

The Wendy's Restaurant System

Wendy's is a restaurant franchising system specializing in the hamburger sandwich segment of the quick service restaurant industry.

Wendy's is primarily engaged in the business of operating, developing, and franchising a system of quick-service restaurants serving food. As of January 3, 2010, there were 6,541 Wendy's restaurants in operation in the United States and in 21 foreign countries and U. S. territories. Of these restaurants, 1,391 were operated by Wendy's and 5,150 by a total of 487 franchisees.

Wendy's is also a partner in a Canadian restaurant real estate joint venture with Tim Hortons, Inc. The joint venture owns Wendy's/Tim Hortons combo units in Canada. As of January 3, 2010, there were 105 Wendy's restaurants in operation that were owned by the joint venture. The Tim Hortons menu includes coffee, flavored cappuccinos, specialty teas, home-style soups, fresh sandwiches, and fresh baked goods.

Franchised Restaurants: As of January 3, 2010, Wendy's franchisees operated 5,150 Wendy's restaurants in 49 states, Canada, and 20 other countries and U. S. territories.

The Arby's Restaurant System

Arby's is a restaurant franchising system specializing in the roast beef sandwich segment of the quick service restaurant industry. As the franchisor of the Arby's restaurant system, ARG, through its subsidiaries, owns and licenses the right to use the Arby's brand name and trademarks in the operation of Arby's restaurants.

As of January 3, 2010, there were 1,169 company-owned Arby's restaurants and 2,549 Arby's restaurants owned by 470 franchisees. Of the 2,549 franchisee-owned restaurants, 2,427 operated within the United States and 122 operated outside the United States, principally in Canada. ARG also owns the T.J. Cinnamons concept, which consists of gourmet cinnamon rolls, gourmet coffees and other related products. As of January 3, 2010, there were a total of 108 T.J. Cinnamons outlets, 96 of which are multi-branded with domestic Arby's restaurants.

Competition

Wendy's competitors include McDonald's, Burger King, Taco Bell, Kentucky Fried Chicken, and Arby's.

Arby's faces direct and indirect competition from non-burger sandwich chains, such as Panera Bread, Subway and Quiznos, as well as hamburger chains, such as McDonald's, Burger King and Wendy's, and other quick service restaurant chains, such as Taco Bell, Chick-Fil-A, and Kentucky Fried Chicken.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
