## Abstracts

WGI Heavy Minerals Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between WGI Heavy Minerals Inc. and its competitors. This provides our Clients with a clear understanding of WGI Heavy Minerals Inc. position in the [Metals and Mining](#) Industry.

The report contains detailed information about WGI Heavy Minerals Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for WGI Heavy Minerals Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The WGI Heavy Minerals Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes WGI Heavy Minerals Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of WGI Heavy Minerals Inc. business.

### **About WGI Heavy Minerals Inc.**

WGI Heavy Minerals, Incorporated engages in the acquisition, exploration, development, and operation of mineral properties. The company manufactures aftermarket ultra high pressure waterjet parts. Its primary product is industrial grade garnet.

The company's wholly owned subsidiary, Emerald Creek Garnet Ltd. (ECG), owns and operates the Emerald Creek mine. Garnet produced at its properties and purchased from Transworld Garnet India (Pvt.) Limited (TGI under the Distribution Agreement is marketed directly by ECG and two other wholly owned subsidiaries, WGI Heavy Minerals, an Idaho company, and Kominex Mineralmahlwerk Ermsleben GmbH, a German company (Kominex). Kominex also carries on the recycling of garnet and related products, coupled with the distribution of abrasive blasting materials, aftermarket ultra high pressure waterjet cutting machine replacement parts and other products. Another wholly owned subsidiary, International Waterjet Parts, Inc. (IWP), manufactures and sells aftermarket ultra high pressure waterjet cutting machine replacement parts.

Emerald Creek Mine – Idaho, U.S.A.

The Emerald Creek mine is a surface mine of approximately 299 acres, located along

the St. Maries River basin and the Emerald Creek and Carpenter Creek basin in Benewah and Shoshone Counties, Idaho. The mine and mill are operated by ECG, whose interest in the mining area arises under six leases from private landowners.

WGI Heavy Minerals, Inc., Idaho (WGI Idaho)

WGI Idaho is a trading company of mineral products. It also owns Kominex, Emerald Creek Garnet and International Waterjet Parts. The company is located in the Coeur d'Alene, Idaho. WGI Idaho administers the VVM supply agreement and is responsible for the administration, marketing, and sale of the products produced pursuant to the supply agreement.

Kominex

Kominex is a recycling and trading company for mineral products. The company is located in the federal state Sachsen-Anhalt in Central Germany. Kominex has an international sales & marketing office located in Rodermark/Frankfurt, an industrial metropolis in the south of Germany, and a wholly owned subsidiary, Kominex B.V in the Netherlands.

IWP

IWP manufactures aftermarket ultra high pressure replacement waterjet parts and is a wholesaler of other waterjet parts manufactured by other suppliers.

History

WGI Heavy Minerals, Incorporated was founded in 1988.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
