pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes White Mountains Insurance Group, Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of White Mountains Insurance Group, Ltd. business.

About White Mountains Insurance Group, Ltd.

White Mountains Insurance Group, Ltd., through its subsidiaries, operates property and casualty insurance, and reinsurance businesses

Segments

The company's segments include OneBeacon, White Mountains Re, Esurance, and Other Operations.

ONEBEACON

The OneBeacon segment consists of OneBeacon Insurance Group, Ltd. (OneBeacon Ltd.), an exempted Bermuda limited liability company that owns a family of U.S.-based property and casualty insurance companies (collectively OneBeacon), most of which operate in a multi-company pool. OneBeacon offers a range of specialty, commercial and personal products and services sold primarily through independent agents and brokers. As of December 31, 2009, the company owned 75.4% of OneBeacon Ltd.

In 2009, OneBeacon sold the renewal rights from its non-specialty commercial lines business to The Hanover Insurance Group.

Lines of Business

Specialty Lines

OneBeacon's specialty lines are a collection of niche businesses that focus on solving the needs of particular customer groups on a national scale. OneBeacon's specialty lines businesses provide distinct products and offer tailored coverages and services, managed by teams of market specialists. These businesses maintain operations and distribution channels targeting their specific customer groups. OneBeacon's specialty lines include various businesses focused on smaller property-casualty insurance segments. OneBeacon's specialty lines include Technology, Financial Services, OneBeacon Specialty Property, and Property and Inland Marine businesses.

OneBeacon Professional Insurance (OBPI): OBPI focuses on professional liability insurance products for a range of industry groups. Medical liability insurance for health-care industry segments, including hospitals, physician groups, managed care organizations, long-term care facilities and other non-hospital medical facilities, represents the most significant share of OBPI's business. Additionally, OBPI offers stop loss insurance to certain health-care providers through its provider excess insurance and HMO reinsurance products. Errors and omissions liability insurance coverage is also provided to business segments, including design professionals for the construction industry, law firms, in-house counsel, realtors and media organizations. Management liability coverage, specifically directors and officers and employment practices insurance, is offered on a limited basis.

Collector Cars and Boats: OneBeacon provides property and casualty insurance solutions through a partnership with Hagerty Insurance Agency and Hagerty Classic Marine Insurance Agency (Hagerty). Hagerty's specialty services include collector car and wooden boat insurance, automotive museum insurance, restoration shop insurance, vehicle valuation, financing and roadside assistance, as well as various useful information resources. Its Hagerty Plus community of collector car enthusiasts has approximately 280,000 members.

International Marine Underwriters (IMU): IMU coverages include physical damage or loss and general liability for cargo and commercial hull, both at primary and excess levels. IMU also offers coverage for marinas, including a package product with property

and liability coverage, and yachts. Target customers include ferry operators and charter boats (hull), marina operators and boat dealers (package product) and private-pleasure yachts.

Technology: Technology's customer groups include hardware manufacturers, software companies, and telecommunications service providers. OneBeacon's custom @vantage for Technology policies provides coverage for technology customers' needs, including specialized professional liability, such as data privacy, communications and errors and omissions liability, both domestically and internationally. Within the Technology segment, OneBeacon also focuses further with a product tailored for medical technology customers available on a claims-made or occurrence basis that also provides protection worldwide. Within this class, OneBeacon targets medical device manufacturers and operations.

Property and Inland Marine (PIM): The PIM segment provides monoline property and inland

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
