About Wilmington Trust Corporation

Wilmington Trust Corporation, through its subsidiaries, provides a range of banking and other financial services. The company's services include deposit-taking, lending, fiduciary, trustee, financial planning, investment consulting, asset management, insurance, broker-dealer, and administrative services.

The company's principal subsidiary is Wilmington Trust Company (WTC), a Delaware-chartered bank and trust company. It also owns a depository institution: Wilmington Trust FSB (WTFSB), a federally-chartered savings bank. WTFSB owns Wilmington Trust Retirement and Institutional Services Company (WTRISC), a Delaware-chartered trust company. WTRISC owns Wilmington Trust Fiduciary Services Company (WTFSC), a New Jersey-chartered non depository bank.

Segments

The company has three core businesses: Regional Banking, Corporate Client Services (CCS), and Wealth Advisory Services (WAS).

Regional Banking

The Regional Banking business provides services, such as commercial lending, including commercial real estate and land development loans and lines of credit, term loans, and demand loans for working capital and to finance accounts receivable, inventory, and equipment purchases; consumer lending, including installment loans, residential mortgages, home improvement loans, direct and indirect automobile loans, credit cards, and secured and unsecured lines of credit; and deposit taking, including demand checking, certificate of deposit, negotiable order of withdrawal, money market, and various savings deposit services.

Corporate Client Services (CCS)

The Corporate Client Services business provides various services, including indenture, successor, collateral, and liquidating trustee and administrative services that support corporate debt issuances, syndicated bank loans, reorganizations, debt restructurings, mergers, and bankruptcies; owner and indenture trustee and specialized services that support asset-backed securitizations and financing structures for aircraft, power generating facilities, ships, and other types of capital equipment; independent directors, corporate governance, and regulatory reporting services for special purpose entities; trust and custody services for unbundled retirement plans; and fixed income investment and cash management services. CCS markets its services primarily to investment bankers, corporate tax advisors, and financial executives of multinational institutions.

Wealth Advisory Services

The Wealth Advisory Services business provides various services to clients throughout the United States. These services include investment counseling, asset allocation, and asset management; proprietary and third-party investment management that encompasses a full spectrum of investment styles and asset classes, including domestic and international equities, fixed income instruments, mutual funds, real estate investment trusts, private equity investments, and hedge funds; strategies for taxable and tax-exempt cash portfolios; fiduciary and trust services; financial, estate, succession, and other planning services; tax preparation, estate settlement, private banking, and insurance services; broker-dealer services; an corporate governance, business management, bookkeeping, and other administrative services for family offices.

Clients

The company's principal client base consists of consumer banking clients in the state of

Delaware; commercial banking clients throughout the mid-Atlantic region, which includes the state of Delaware and contiguous areas in Pennsylvania, New Jersey, and Maryland; high-net-worth clients throughout the United States; retirement plan sponsors throughout the United States; and institutional clients in the United States, Europe, and the Caribbean.

Investment Portfolio

As of December 31, 2009, the company's investment portfolio included U.S. treasury securities; government agency securities; obligations of state and political subdivisions; collateralized mortgage obligations; mortgage-backed debt securities; and trust-preferred securities.

History

Wilmington Trust Corporation was founded in 1901.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
