The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of WNS (Holdings) Ltd. business.

About WNS (Holdings) Ltd.

WNS (Holdings) Limited provides offshore business process outsourcing (BPO) services. The company provides data, voice, and analytical services in its target industry sectors. It transfers the business processes of its clients, which are typically companies located in Europe, North America, and the Asia Pacific regions to its delivery centers located in India, the Philippines, Sri Lanka, the United Kingdom, Romania, and Costa Rica.

The company designs implements and operates business processes for its clients, involving data, voice and analytical components. Its services include industry-specific processes that are tailored to address its clients' business and industry practices, particularly in the travel and leisure, and banking, financial services and insurance (BFSI), industries, as well as businesses in the consumer products, retail, professional services, pharmaceutical, media and entertainment, manufacturing, logistics, telecommunications, and utilities industries. In addition, the company delivers shared services applicable across multiple industries, in areas, such as finance and accounting, and research and analytics services.

Business Process Outsourcing Service Offerings

The company offers its services to four main categories of clients through industry-focused business units. It serves clients in the travel and leisure industry, including airlines, travel intermediaries and other related service providers, for whom it performs services, such as customer service and revenue accounting. It serves clients in the BFSI industry for whom it performs services, such as insurance claims management, account set-up and other related services, and asset management support. The company serves clients in the industrial and infrastructure industry, including manufacturing, logistics, telecommunications and utilities. It serves clients in various other industries, including consumer products, retail, professional services, pharmaceutical, and media and entertainment, which the company refers to as emerging businesses. In addition to industry-specific services, the company offers a range of services across multiple industries, in the areas of finance and accounting services and market, business and financial research and analytical services, which the company refers to as finance and accounting services, and research and analytics services.

Travel and Leisure Services

The company's service portfolio includes processes that support air, car, hotel, marine and packaged travel and leisure services offered by its clients. The key travel and leisure industry sectors the company serves include airlines and hotels; travel intermediaries; and others, such as global distribution systems and network providers. As of March 31, 2010, the company served a client base in this business unit that included British Airways, Societe Internationale de Telecommunications Aeronautiques (SITA), Travelocity.com LP (Travelocity), United Airlines, and Virgin Atlantic Airways Ltd. It served approximately 25 airlines, hotels, and travel intermediaries.

BFSI Services

The key BFSI industry sectors the company serves include integrated financial services companies; life, annuity, and property and casualty insurers; insurance brokers and loss assessors; self-insured auto fleet owners; commercial and retail banks; mortgage banks and loan servicers; asset managers and financial advisory service providers; and healthcare payors, providers, and device manufacturers.

As of March 31, 2010, the company served a client base in this business unit that included AVIVA, Biomet Inc., and Marsh & McLennan Companies Inc. (MMC). It also served the U.S. based financial advisory provider, the U.K. auto insurer, a large insurance loss adjuster, self-insured fleet owners, and mortgage-related companies.

The company owns Chang Limited, an auto insurance claims processing services provider in the U.K. through its wholly owned subsidiary, Call 24-7 Limited (Call 24-7), which provides solutions to the U.K. insurance industry. Call 24-7 offers a suite of back-office insurance claims services, including first notification of loss, third party claims handling

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
