Abstracts

Wowjoint Holdings Limited Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Wowjoint Holdings Limited and its competitors. This provides our Clients with a clear understanding of Wowjoint Holdings Limited position in the Industry.

The report contains detailed information about Wowjoint Holdings Limited that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Wowjoint Holdings Limited. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Wowjoint Holdings Limited financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Wowjoint Holdings Limited competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Wowjoint Holdings Limited business.

About Wowjoint Holdings Limited

Wowjoint Holdings Limited engages in the design, engineering, and manufacturing of customized infrastructure equipment and machinery used in the construction of railways, highways, metro subways, bridges and viaducts in the People's Republic of China (PRC) and internationally. The company markets its products under the 'Wowjoint' brand name.

Products

The company provides solutions to different construction projects by designing, engineering, and manufacturing customized large scale equipment for the lifting, carrying, transportation, and installation of heavy objects and precast materials. It offers various product lines of re-locatable and stationary custom heavy duty construction equipment and machinery and its products are used in various engineering fields, such as the construction of railways, highway, viaducts, and ports, as well as in the lifting and transporting of concrete beams and other heavy goods. The company's main product lines include launching gantries, tyre trolleys, special carriers, integrated launching carriers, marine hoists, and special purpose equipment.

Launching Gantry – The company manufactures various heavy duty launching gantries

that are used for the erection of bridges and viaducts. They are designed to place precast reinforced concrete segments or beams on piers and are used for the construction of segmental cantilevers; segmental one in span by span; T or hollow beams; and box beams road viaducts and bridges. The company's gantries can carry weight from 80 metric ton to 1600 metric tons.

Tyre Trolley – The company designs and manufactures various heavy duty tyre trolleys that move prefabricated concrete segments or beams and provide enhanced maneuverability in erected pavement construction sites. The tyre trolleys provide flexibility to move prefabricated concrete beams into confined spaces within the pavement surface and work well in tandem with its launching gantry. The company's tyre trolleys can transport weight from 40 metric ton to 1600 metric ton.

Special Carrier – The company's straddle carriers/Mobilifts offer a solution to handle bulky loads inside large sheltered places. They are also suitable for loading and unloading cargos in container terminals or steel plants.

Integrated Launching Carrier – The company designs and manufactures various integrated launching carriers which combine the functions of the launching gantry, the tyre trolley, and the special carriers depending on the needs of its clients.

Marine Hoist – The company's marine hoists are capable of lifting a 20 metric ton to 1,500 metric ton boat or yacht out of the water and maneuvering them onto dry land for service or long-term storage, or for the transporting of boats and ships over dams.

Special Purpose Equipment – The company manufactures various special purpose lifting and carrying equipment according to each customer's specific requirements. The container lifting equipment is designed to hoist, stack and transport any material or 60 metric ton ISO standard containers. The straddle carrier loads and unloads the container utilizing a pair of hydraulic powered cranes mounted at each end of the vehicle chassis. The special purpose equipment series includes telescopic spreaders for straddle carriers and straddle carriers for handling containers.

Customers

The company's customers are business entities, such as project and construction companies established and directed by the central and local governments of the PRC. Its major customers include China Railway Construction Corporation Limited; China Railway Group Limited; China Communications Company Limited; and Sinohydro

Corporation.

Competition

The company's major competitors are Beidaihe Tonglian Jixie Co., Ltd.; China Railway Engineering Machinery Research & Design Institute; Zhengzhou Dafang Bridge-Machine Co., Ltd.; and Zhengzhou Huazhong Building Machinery Co., Ltd.

History

Wowjoint Holdings Limited was founded in 2004.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
