## Abstracts

WPCS International Incorporated Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between WPCS International Incorporated and its competitors. This provides our Clients with a clear understanding of WPCS International Incorporated position in the [Software and Technology Services](#) Industry.

The report contains detailed information about WPCS International Incorporated that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for WPCS International Incorporated. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The WPCS International Incorporated financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes WPCS International Incorporated competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of WPCS International Incorporated business.

## **About WPCS International Incorporated**

WPCS International Incorporated provides design-build engineering services for communications infrastructure. The company provides its engineering capabilities, including wireless communication, specialty construction, and electrical power to a customer base in the public services, healthcare, energy, and corporate enterprise markets worldwide.

### **Design-Build Services**

The company operates in three business segments: Wireless Communication, Specialty Construction, and Electrical Power.

### **Wireless Communication**

The company designs wireless networks and provides the technology integration necessary to meet activities for communication. It has the engineering know-how to utilize all facets of wireless technology or combination of various technologies to develop a network for a customer's wireless communication requirements. This includes Wi-Fi networks, WiMAX networks, point-to-point systems, mesh networks, microwave

systems, cellular networks, in-building systems, and two-way communication systems.  
Specialty Construction

The company offers specialty construction services for building design, including the design and integration of mechanical, electrical, hydraulic, and life safety systems. It works through various phases of the building design and construction to evaluate the design. The company has capabilities in transportation infrastructure. It provides design-build engineering services for the technologically advanced systems. The company designs and deploys alternative energy solutions in wind and solar power. Through a combination of scientific, geologic, engineering and construction know-how, the company offers solutions in site design, solar installation, meteorological towers, and wind turbine installation.

### Electrical Power

The company provides electrical contracting services to help commercial and industrial facilities of all types and sizes to upgrade their power systems. Its capabilities include power transmission, switchgear, underground utilities, outside plant, instrumentation, and controls. In addition, corporations, government entities, healthcare organizations and educational institutions depend on voice, data, and video communications. The company creates integrated building systems, including the installation of structured cabling systems and electrical networks. It supports the integration of telecommunications, fire protection, security and HVAC in a manner and design for growth by building in additional capacity for expansion as new capabilities are added.

### Markets

The company focuses on markets, such as public services, healthcare, energy, and international.

**Public services:** The company provides communications infrastructure for public services which includes police, fire, emergency dispatch, utilities, education, military, and transportation infrastructure.

**Healthcare:** The company provides communications infrastructure for hospitals and medical centers.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
