Such information creates your awareness about principal trends of W.R. Berkley Corporation business.

## **About W.R. Berkley Corporation**

W. R. Berkley Corporation operates as an insurance holding company in the United States and internationally.

### **Segments**

The company operates in five segments of the property casualty insurance business: Specialty Lines of Insurance, including excess and surplus lines, premises operations, professional liability and commercial automobile; Regional Commercial Property Casualty Insurance; Alternative Markets, including workers' compensation and the management of self-insurance programs; Reinsurance, including treaty, facultative, and Lloyd's business; and International.

### **SPECIALTY**

The Specialty segment underwrites third-party liability risks, within excess and surplus lines and on an admitted basis. The specialty lines of business include premises operations, commercial automobile, property, products liability and professional liability lines. The specialty business is conducted through 18 operating units. The specialty units deliver their products through various distribution channels depending on the

customer base and particular risks insured.

Admiral Insurance Company (Admiral) provides excess and surplus lines coverage that generally involves a moderate to high degree of hazard due to the nature of the class of coverage or type of business insured. Admiral concentrates on general liability, professional liability, property, and excess and umbrella liability lines of business. Admiral's products are distributed by wholesale brokers.

Nautilus Insurance Company (Nautilus) insures excess and surplus risks for small to medium-sized commercial risks with low to moderate susceptibility to loss. Admitted business is also written through an affiliate, Great Divide Insurance Company. A substantial portion of Nautilus' business is written on a binding authority basis, subject to certain contractual limitations.

Monitor Liability Managers, Inc. (Monitor) offers professional liability insurance, including directors' and officers' liability, employment practices liability, lawyers' professional liability, management liability, non-profit directors' and officers' liability and accountants' professional liability.

Carolina Casualty Insurance Company (Carolina) provides commercial insurance products and services to the transportation industry with an emphasis on intermediate and long-haul trucking and various classes of business and public auto. Carolina operates as an admitted carrier in 50 states and the District of Columbia.

Berkley Specialty Underwriting Managers LLC (Berkley Specialty) has three underwriting divisions. The specialty casualty division underwrites excess and surplus lines general liability coverage with an emphasis on products liability. The entertainment and sports division underwrites property casualty insurance products, both on an admitted and non-admitted basis, for the entertainment industry and sports-related organizations. The environmental division underwrites specialty insurance products to environmental customers, such as contractors, consultants, and owners of sites and facilities.

Berkley Underwriting Partners, LLC (Berkley Underwriting Partners) underwrites specialty insurance products through program administrators and managing general underwriters. Berkley Underwriting Partners underwrites business nationwide on an admitted and non-admitted basis.

Berkley Select, LLC (Select) involves in underwriting professional liability insurance with

a particular emphasis on lawyers, accountants, medical facilities and miscellaneous E&O exposures. Select's products are distributed through brokers.

Vela Insurance Services, Inc. (Vela) underwrites excess and surplus lines casualty business with a primary focus on contractors along with a portfolio of miscellaneous professional liability. Vela underwrites various classes nationwide through a network of appointed excess and surplus lines brokers. Vela also underwrites wrap-up policies for residential projects, primarily in California, through a managing general agency.

Clermont Specialty Managers, Ltd. (Clermont) underwrites package insurance programs, including workers' compensation, for luxury condominium, cooperative and rental ap

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
