The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Xtra-Gold Resources Corp. business.

About Xtra-Gold Resources Corp.

Xtra-Gold Resources Corp., through its subsidiaries, engages in the exploration of gold properties in the Republic of Ghana, West Africa. The company's interests in its projects are held, by its Ghanaian subsidiaries, through prospecting licenses and mining leases granted by the Government of Ghana for licensed or leased areas respectively located within and upon concessions in Ghana.

Properties

The company's properties, except for its Apapam Project, are at an early stage of evaluation, which include Kwabeng, Project, Bansa and Muoso Project, Edum Bansa Project, and Pameng Project. Three concessions totaling 118.92 square kilometers namely its Kwabeng Project, Pameng Project and its Apapam Project, which is located to the south of its Kwabeng and Pameng Projects, are contiguous to its Bansa and Muoso Project.

The Kwabeng and Pameng Projects: The company holds 30-year mining leases on its Kwabeng and Pameng mining concessions and a 7-year mining lease on its Apapam mining concession.

The Bansa and Muoso Project: The company's Bansa and Muoso Project consist of two concessions totaling 107.32 square kilometers. It holds one prospecting licence for the Bansa and Muoso concessions which are situated approximately 80 kilometers north of Accra.

The Apapam Project: The company's Apapam Project concession lies within the Kibi-Winneba Gold Belt and is located in the immediate vicinity of the district capital of Kibi, approximately 75 kilometers NNW of Accra.

The Edum Bansa Project: The company's Edum Bansa Project lies within the south Ashanti gold belt in the Western Region of Ghana and is located approximately 235 kilometers west of Accra and 15 kilometers northwest of Takoradi.

History

The company was incorporated in 1998 under the name Silverwing Systems Corporation and changed its name to Advertain On-Line Inc. in 1999. Further, it changed its name to RetinaPharma International, Inc. in 2001; and to Xtra-Gold Resources Corp. in 2003.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
