## **Abstracts**

Yamana Gold, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Yamana Gold, Inc. and its competitors. This provides our Clients with a clear understanding of Yamana Gold, Inc. position in the Industry.

The report contains detailed information about Yamana Gold, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Yamana Gold, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Yamana Gold, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Yamana Gold, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Yamana Gold, Inc. business.

### **About Yamana Gold, Inc.**

Yamana Gold Inc. engages in the acquisition, exploration, development, and operation of gold properties. The company also focuses on copper and silver projects. The company holds gold production, gold development stage, and exploration stage properties, as well as land positions in Brazil, Argentina, Chile, Mexico, and Central America.

The company's portfolio includes 7 operating gold mines, namely Chapada (copper/gold), El Penon (gold/silver), Jacobina, Gualcamayo, Minera Florida (gold/silver/zinc), Fazenda Brasileiro and a 12.5% indirect interest in the Alumbreira mine (copper/gold/molybdenum); and various advanced and near development stage projects and exploration properties in Brazil, Chile, Argentina, Mexico, and Colombia.

### **Material Mineral Properties**

#### **Chapada Mine**

The company controls the Chapada property through a series of mining concessions and exploration permits and claims totaling 17,182 hectares. It controls surface rights in the area of the Chapada deposit and covers the sites for all project buildings and fixed

installations, as well as the areas for waste dumps.

### El Penon Mine

The El Penon property is located in the Atacama Desert in northern Chile, approximately 165 kilometres southeast of Antofagasta. The company owns 349 individual mining claims comprising the El Penon mine, the Fortuna area and surrounding exploration lands. The company owns 100% interest in El Penon. At the El Penon mine, the company holds all the necessary environmental licenses and permits to operate the mine.

### Jacobina Mining Complex

The Jacobina property is located in the state of Bahia in northeastern Brazil approximately 340 kilometres northwest of the city of Salvador. The property consist of 5,996 hectares of mining concessions and 128,209 hectares of granted exploration concessions. The company owns the Jacobina project and exploration projects in the Bahia gold belt. The project is owned through the company's wholly owned subsidiary, Jacobina Mineração e Comercio Ltda.

### Gualcamayo Mine

The Gualcamayo property is located in northern San Juan Province, Argentina, approximately 270 kilometres north of the provincial capital of San Juan. The main Gualcamayo block consists of one Cateo and 57 Minas and covers 7,128 hectares.

The Gualcamayo property includes three known deposits, QDD, Amelia Ines and Magdalena. The Gualcamayo property is owned 100% by Minas Argentinas S.A. (MASA), a wholly owned subsidiary of the company.

### Minera Florida Mine (Alhue Property)

The Minera Florida Mine (also known as the Alhue Property or the Pedro Valencia Mine) is located within the Coastal Range in the Metropolitan Region of central Chile. The property consists of 166 mineral licences, covering a total area of approximately 15,600 hectares. The property is partly owned and partly leased by Yamana, and the Pedro Valencia Mine is located within the property boundaries. Mining licences in and around the Pedro Valencia Mine area are contained within a rectangular block consisting of 33 licences. The property also includes approximately 133 mineral

concessions in a large area around the mining licences. The company has 100% interest in Minera Florida.

### Other Producing Mines

#### Fazenda Brasileiro Mine

The Fazenda Brasileiro property includes a producing gold mine and approximately 197,000 hectares of adjacent exploration properties. It is located in northeast Brazil in the eastern portion of Bahia state, 180 kilometres NNW of the state capital city of Salvador. The Weber Belt consists of 15 contiguous tenements at various stages of the Brazilian tenure process, totalling approximately 12,000 hectares. The remaining area consist of 148 blocks, many of which are contiguous and all at various stages of the tenure process, totalling approximately 184,500 hectares in area. A total of 76,413 ounces of gold were produced from Fazenda Brasileiro during 2009. In 2009, 21,804 metres of drilling was completed in 155 diamond drill holes. The company holds all the necessary environmental licenses to operate the Fazenda Brasileiro mine.

#### Alumbrera Mine

The Alumbrera Mine is an open-pit copper/gold/molybdenum mine at Alumberr

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
