The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Yuhe International, Inc. business.

### **About Yuhe International, Inc.**

Yuhe International, Inc., through its subsidiaries, supplies day-old chickens raised for meat production (or broilers) in the People's Republic of China. The company purchases parent breeding stock from breeder farms, raises them to produce hatching eggs, and hatches the eggs to day-old broilers.

The company operates 28 breeder farms with 15 in operation and 2 hatcheries with a total annual capacity of 1.2 million sets of breeders and 120 hatchers through its wholly-owned subsidiary, Weifang Yuhe Poultry Co. Ltd. (PRC Yuhe). The company's day-old broilers are primarily purchased by broiler farms and integrated chicken companies for the purpose of raising them to market-weight broilers.

The company's customers are located in the 10 provinces and special municipalities centered around Shandong Province, which are Jiangsu, Anhui, Henan, Hebei, Jilin, Liaoning, Heilongjiang, Tianjin, Beijing, and Shanghai. In connection with its day-old broiler business, the company also operates a feed stock company named Weifang Taihong Feed Co. Ltd. (Taihong), whose primary purpose is to supply feed stock to its breeders. Its operations are conducted by its subsidiaries, PRC Yuhe and Taihong, in China.

The company operates in two elements of the broiler supply chain: day-old broiler production and feed production. These activities are operated under two separate subsidiaries, PRC Yuhe and Taihong, respectively.

In addition to selling day-old broilers, the company sells related chicken products, non-productive parent breeders, and a small amount of feed for livestock and poultry. It produces its inventory of hatching eggs through its own parent breeders, it occasionally purchases additional hatching eggs from unaffiliated third parties to meet market requirements.

### Customers and Distribution

Through PRC Yuhe, the company's customers are principally consists of distributors and end users, such as integrated chicken companies, broiler raising companies and individual broiler raisers. Its customers include both distributors and end users. Its customers include Wei Yunchao, Wang Jianbo, Li Chuanwang, Jia Deliang, Tian Liqui, Geng Naiwei, Chen Shiwen, Yang Lunhao, and Song Fuquan.

### Suppliers

The company's suppliers include Wang Jianbo, Tang Xinming, Ma Suping, Gao Ping, Liu Dianbao, Xu Zhenming, Shanghai Shen De Equipment Co., Ltd., Zhang Chun Mao, Shandong Yisheng Poultry Co., Ltd., and Jiang Zhaolin.

### Competition

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
