The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of ZVUE Corporation business.

About ZVUE Corporation

ZVUE Corporation provides online and offline digital entertainment to 18-35 year olds. The ZVUE Network of Websites provides its demographic with online entertainment, such as commercial and user generated video, games, images and other forms of online entertainment.

The company's ZVUE Products group works with content partners to bundle consumer electronics products with desirable content and then sell them in retail distribution. Its library of video content comes to the company from both its network of user-generated video sites, which house videos that are created by users, and its commercial content providers who have contracted with the company to provide the company with approximately 12,000 commercially produced videos.

The company's commercial content is supplied by commercial content providers, including Sony BMG Music Entertainment, Warner Music Group, Showtime, International Marketing Group, National Lampoon, Comedy Time, Canadian Broadcasting Corporation and others.

The company, in October 2007, acquired eBaum'sWorld.com. eBaumsWorld.com is an online publisher of humor related content. In addition to its on-line media business, its

ZVUE Products group sources, bundles and sells portable media devices which are sold in mass market distribution under its ZVUE brand. The company sources its products through select OEM manufacturers, bundle them with top-tier content from its content providers and sells them through established retail distribution channels.

The company, in March 2008, launched its ZVUE Spirit player, a patriotic-themed mp3 player pre-loaded with classic, popular patriotic-themed songs from popular artists. These new players would be sourced entirely through OEM manufacturing relationships while being designed and marketed by the ZVUE Products team.

New Products

The company, in March 2008, announced the ZVUE Spirit player, a patriotic-themed MP3 player pre-loaded with classic, popular patriotic-themed songs from popular artists. The ZVUE Spirit is the first in a series of planned value-based handheld players featuring the latest in product design pre-packaged with compelling special-themed digital content from content providers. These new players would be sourced entirely through OEM manufacturing relationships while being designed and marketed by the ZVUE products team.

Markets

The company's ZVUE products have been sold across the entire North American Wal-Mart retail network as well as at Borders. Its products can also be found on various Internet retail sites, such as Amazon.com.

Customers

The company's major customer is Wal-Mart.

Competition

The company competes with video oriented web sites, such as YouTube or commercial video, such as iTunes. Its competitors also include Apple, Microsoft, Nintendo, Nokia, Sony, Samsung, Toshiba and Creative Labs.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need

2-3 days to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
